The irrigation board may continue said hearing from time to time, by order entered upon its minutes, to the end that a full hearing may be had. Upon the final hearing

of said matter, the irrigation board shall make an order approving said petition as originally presented, or as modified by such order, excluding from the district such lands as in the judgment of the irrigation board should be excluded, and upon the filing of such order with the irrigation board, such irrigation district shall be deemed to be created. The order shall describe the exterior boundaries of the district, as determined by the irrigation board, and also the exterior boundaries of any lands excluded therefrom, and shall be endorsed upon or attached to the petition, and be signed by the president and attested by the secretary of the irrigation board. A certified copy of the order creating such irrigation district shall be filed in the office of the secretary of state, and a certified copy of such order, together with a map showing the exterior boundaries of the district, and indicating the lands excluded therefrom, shall be filed in the office of the county recorder of each of the counties in which any of the lands within the said district are situated, and a properly certified copy of such order together with the maps attached thereto, shall be received in all of the courts of this state as prima facie evidence of the organization of such district and of the boundaries thereof. Before the irrigation board makes such order, it may require that the project and proposed works be approved by the state engineer, or by such engineer or engineers as shall be designated by the irrigation board.

Each irrigation district created under the provisions of this act shall have a board of directors composed of owners of land within the district, elected by the owners of land in such district in the manner provided for the election of trustees of reclamation districts in section three thousand four hundred ninety-one (3491) of the Political Code of the State of California, except that such elections shall be called by and returns thereof made to the board of supervisors of the county in which the greater portion of the lands of the district are situated. Each such district shall have a board consisting of five directors, provided, that if so requested in the petition for the formation of said district, the irrigation board may order that there shall be only three directors. After the approval of the petition and the election of directors for the district, the directors shall adopt rules, not inconsistent with the laws of the state, for the government and control of the affairs of the district, which rules may be amended at any time by said board of directors.

The board of directors of any irrigation district created under this act may commence a proceeding in the superior court of any county, wherein a portion of the district is situated, to determine the legality of the existence of said district. The complaint in said proceeding shall describe the district by name and the exterior boundaries thereof and shall contain a prayer that such district be adjudged a legal irrigation district. The summons in such proceeding shall be served by publishing a copy thereof once a week for four successive weeks in a newspaper of general circulation published in each county where any part of such district is situated. Within thirty days after the last publication of said summons, any person, who may be interested, may appear and answer said complaint, in which answer the facts relied upon to show the invalidity of the district shall be set forth. If no answer shall be filed, the court must render judgment as prayed for in the complaint. If any answer shall be filed within said period, the court shall thereafter proceed as in other civil cases, but no district shall be adjudged invalid when it appears that such district has, for five years prior to the commencement of such proceeding, been performing its functions as an irrigation district under this act in good faith. The proceeding under this section is hereby declared to be a proceeding in rem, and the judgment rendered therein shall be conclusive against all persons whomsoever and against the State of California.

Sec. 7. Section six of said act is hereby amended to read as follows:

Sec. 6. Any irrigation district formed under the provisions of any other law or statute of this state, and any reclamation district or drainage district (excluding from any such district the area embraced within the limits of any incorporated city or town) susceptible of irrigation from any project adopted or approved by the irrigation board, may become an irrigation district under the provisions of this act upon presenting to the irrigation board a consent thereto signed by the holders of title or evidence of title, of more than half of the lands embraced in said district (excepting lands within incorporated cities or towns). Upon the filing of such consent, the irrigation board shall fix a date for a hearing of the matter involved in such consent. The secretary of the irrigation board shall publish a notice of such hearing once a week for four successive weeks preceding the date fixed therefor in a newspaper of general circulation published in each of the counties in which any portion of said district is situated. At the time and place designated in said notice the irrigation board shall hear and receive such evidence as may be offered in support of the proposal to convert such district into an irrigation district under the provisions of this act and in support of any written objection thereto filed with the irrigation board. The irrigation board may continue said hearing from time to time, by order entered upon its minutes, to the end that a full hearing may be had. Upon the final hearing of said matter, the irrigation board shall make its order, providing that said district (excluding therefrom the territory embraced in incorporated cities or towns) shall thereafter be an irrigation district subject to all of the provisions of this act or, in its discretion, said irrigation board may decline to make such order. If the irrigation board shall make an order converting such district into an irrigation

district, all of the lands therein (except lands lying within the boundaries of incorporated cities or towns) shall become, and shall thereafter be, subject to all of the provisions of this act.

Sec. 8. A new section is hereby added to said act to be numbered section six *a*, to read as follows:

Sec. 6*a*. The board of directors of an irrigation district created under this act shall have power to elect one of its members president thereof, and, subject to the approval of the irrigation board, to employ engineers and others to survey, plan, locate and estimate the cost of the works necessary for the irrigation of the lands of the district, and thereafter subject to the approval of the irrigation board, to modify or change such original plan or plans, or adopt new supplemental or additional plan or plans to acquire by purchase, condemnation or other legal means, necessary property and rights of way, and the right to take material for the construction of all necessary works, including dams, canals, drains, sluices, bulkheads, water-gates, embankments, levees and pumping plants, and to construct, maintain and keep in repair all works requisite and necessary to that end, and to do all other acts and things necessary or required for the irrigation of the lands embraced in the district, and to carry out the purposes of this act. All of the acts and proceedings of such board of directors, however, shall be recorded in the minutes of said board, and copies thereof, certified by the secretary of said board as recorded, shall, within ten days after the passage or adoption of the same, be filed with the secretary of the irrigation board, and the irrigation board within twenty days after such filing may, by order filed with its secretary, reject and nullify the action of the board of directors of such irrigation district, and upon the filing of a certified copy of such order of rejection or nullification with the secretary of such irrigation district, the said order of said irrigation district board shall be invalid and unenforceable for any purpose, but if such action of such irrigation district board shall not be so rejected or nullified within the period above provided, the same shall be and remain in full force and effect. The irrigation board may confirm and ratify any action of said irrigation district board at any time, and upon such confirmation and ratification such act or order of said irrigation district board shall be valid and effective for all purposes. The several members of the board of directors shall each be entitled to receive for actual and necessary services performed and for expenses incurred by them, respectively, for and in the interest of the district, such compensation as the irrigation board may determine to be just and reasonable, which shall constitute an indebtedness of the district to be paid in the same manner and out of the same fund as other debts of the district, *provided*, that no warrant or order drawn for such purpose shall be valid until approved by the irrigation board.

Sec. 9. A new section is hereby added to said act to be numbered six *b*, to read as follows:

Sec. 6*b*. The irrigation board shall have power to consolidate into single districts in the manner and for the purposes provided in this act, irrigation districts, reclamation districts, drainage districts and other political subdivisions of the state organized to promote irrigation, reclamation or drainage, which consolidated districts shall be known, and are herein referred to, as conservation districts. And, the purpose of the formation of such districts being primarily to provide for and promote the irrigation of the lands therein, and in connection therewith and incidental thereto the reclamation and drainage of such lands, the legislature hereby expressly declares that every such conservation district, formed as herein provided, is and shall be an irrigation district within the meaning of section thirteen of article eleven of the constitution of the State of California, and within the meaning of every other provision of said constitution relating to irrigation districts. Such conservation districts shall be composed of two or more units all or any of which units may be irrigation districts, formed under the provisions of this or any other act or statute of this state, reclamation districts, drainage districts, or other political districts of the state organized to promote irrigation, reclamation or drainage, now or hereafter to be formed. The territory embraced within such units need not be contiguous in order to be embraced within the same conservation district, provided all or a portion of the territory embraced within said respective units is susceptible of irrigation from the works proposed to be constructed by said conservation district. Any private corporation engaged in the distribution of water to the public, for irrigation or other beneficial uses, or in the generation of hydroelectric power for sale to the public, and any mutual ditch company or mutual water company organized for the purpose of distributing water to the members or stockholders thereof, which private corporation (mutual ditch company or mutual water company) is receiving or entitled to receive water from the same stream or streams for the storage or diversion of whose waters it is proposed to construct the works of said conservation district, shall have the right, upon payment of its proportion of the cost of constructing, operating and maintaining such works, to share in all of the benefits resulting from such construction, operation and maintenance, including its proportionate share of the water to be conserved thereby and the power to be generated and produced in connection therewith; *provided*, that nothing herein contained shall be deemed to confer upon said irrigation board, or upon any conservation district formed under the provisions of this act, the right to impair or deprive any person firm or corporation of any vested

right in or to the waters of any stream or streams proposed to be stored or diverted by said conservation district, without due process of law.

Upon presentation to it of a petition signed by the respective governing boards of two or more of said units praying for the formation of a conservation district, the irrigation board shall fix a time and place for the hearing of such petition. The secretary of the irrigation board shall cause notice of said hearing to be given by publication once a week for four successive weeks in a newspaper of general circulation published in each county wherein any part of said petitioning districts are situated, and also by mailing a written notice of such hearing to the governing boards of such other districts or political subdivisions of the state and to such private corporations, mutual ditch companies and mutual water companies as may be designated by the irrigation board. At the time fixed by the irrigation board for such hearing, or at such other time to which the hearing may be adjourned, the irrigation board shall hear and receive evidence in support of any objections which may be filed in opposition thereto, and shall also receive applications from other districts to become a part of such conservation district and from private corporations, mutual ditch companies or mutual water companies to participate in the benefits of such conservation district. If there shall be presented at such hearing a written objection or objections signed by the owners of more than one-half of the lands in any such unit district the signing of such petition by the governing board of such unit district shall be deemed to be nullified and the irrigation board shall have no power to include such unit district within the proposed conservation district.

The irrigation board shall include as a part of such conservation district the territory embraced within any district unit applying to be made part of the conservation district, which applying district shall be lawfully receiving or entitled to receive water from the same stream or streams whose waters are proposed to be stored or diverted by such conservation district, and shall admit to beneficial participation in said conservation district such private corporations, mutual ditch companies or mutual water companies likewise lawfully receiving or entitled to receive water and applying to the irrigation board to be admitted to such participation. The application of any unit district or private corporation, mutual ditch company or mutual water company, not so lawfully receiving or entitled to receive water, to be included as a part of said conservation district or to be permitted to share in the benefits thereof may be approved or rejected by the irrigation board in its discretion. Upon the final hearing of said matter, the irrigation board shall make an order approving said petition, as originally presented, or as modified by such order. Such order shall describe said conservation district by exterior boundaries when the lands therein lie in one body, or by naming the unit districts embraced therein when said lands do not lie in one body, and shall also designate the private corporations, mutual ditch companies or mutual water companies, entitled to participate in the benefits of the works proposed to be constructed by said conservation district. Upon the filing of such order with the irrigation board such conservation district shall be deemed to be created. A certified copy of the order creating such conservation district shall be filed in the office of the secretary of state and a certified copy thereof, together with a map showing the boundaries of the district, shall be filed in the office of the county recorder of each of the counties in which any of the lands within the said district are situated. A properly certified copy of such order, together with the map attached thereto, shall be received in all of the courts of this state as prima facie evidence of the organization of such district in compliance with the provisions of this act, and of the boundaries thereof.

After the formation of a conservation district as herein provided, any irrigation district, reclamation district, drainage district, or other political subdivision of the state organized to promote irrigation, reclamation or drainage, theretofore existing and which was entitled to become a part of and unit in such conservation district at the time of its formation, and any such district or political subdivision of the state thereafter formed, any portion of the lands in which are receiving or entitled to receive water from the same stream or streams for the storage or diversion of whose waters said conservation district was formed may, at any time prior to the making by the irrigation board of the order approving the apportionment as provided in section 10 of this act, but not thereafter, file with the irrigation board a petition to be made a part of and unit in such conservation district. And any private corporation, mutual ditch company or mutual water company existing at the time of the formation of such conservation district, and at that time entitled to be admitted to participation in the benefits resulting from the construction of the works of such conservation district and any such private corporation, mutual water company or mutual ditch company thereafter organized and receiving or entitled to receive water from such stream or streams, may, at any time prior to the making by the irrigation board of the order approving the apportionment as provided in section 10 of this act, but not thereafter, file with the irrigation board a petition to be admitted to such participation. Upon the filing of any such petition, within the time heretofore limited, the irrigation board shall fix a time and place for the hearing thereof and give such notice of said hearing and cause such proceedings to be had and taken at such hearing and such order to be made and filed, and certified copies of such order to be filed, as in the case of a hearing upon a petition, for

the original formation of a conservation district, and the right of such petitioning district or political subdivision to become a part of and unit in such conservation district or of such private corporation, mutual water company or mutual ditch company to be admitted to participation in the benefits resulting from the construction of the works thereof, shall be determined in the same manner as if such district or political subdivision or private corporation or mutual water company or mutual ditch company had presented its petition or application at the hearing of the petition for the original formation of such conservation district.

The irrigation board, or the governing body of any irrigation district, reclamation district, drainage district, or other political subdivision of the state organized to promote irrigation, reclamation or drainage, constituting a unit of said conservation district, or any private corporation, or mutual water company or mutual ditch company admitted to participation in the benefits of such conservation district, may commence a proceeding in the superior court of any county wherein a portion of said conservation district is situated to determine the legality of the existence of said conservation district. The complaint in said proceeding shall describe the district by name, and the exterior boundaries thereof, when the lands therein lie in one body, or by naming the unit districts embraced therein when said lands do not lie in one body, and shall contain a prayer that such district be adjudged a legal conservation district. The summons in such proceeding shall be served by publishing a copy thereof once a week for four successive weeks in a newspaper of general circulation published in each county wherein any part of such district is situated. Within thirty days after the last publication of said summons any person who may be interested may appear and answer said complaint in which answer the facts relied upon to show the invalidity of the district shall be set forth. If no answer shall be filed the court must render judgment as prayed for in the complaint. If any answer shall be filed within said period the court shall thereafter proceed as in other civil cases, but no district shall be adjudged invalid when it appears that such district has, for five years prior to the commencement of such proceeding, been performing its functions as a conservation district in good faith. The proceeding under this section is hereby declared to be a proceeding in rem and the judgment rendered therein shall be conclusive against all persons whomsoever and against the State of California.

SEC. 9 Section seven of said act is hereby amended to read as follows:

SEC. 7 When any of the works constructed under the provisions of this act serve the purpose of drainage, flood control or reclamation of swamp and overflowed lands within an irrigation or conservation district formed under the provisions of this act, the irrigation board may estimate the proportion of the cost of said construction, which may be properly charged to the lands benefited by such drainage, flood control or reclamation, and assessments may be levied in the manner herein provided upon the lands so benefited for the purpose of paying such proportion of said cost of construction, together with a reasonable portion of the expenses of maintenance and repair of such works.

SEC. 10 Section eight of said act is hereby amended to read as follows:

SEC. 8 The irrigation board may make and enforce any and all rules and regulations that in its opinion will promote the objects of this act, and may perform any act and exercise any power necessary to the accomplishment of the purposes herein expressed and full power is hereby conferred in the premises whether or not such powers are herein specially mentioned, and may sue and be sued in the same manner and with the same effect as a municipal corporation.

SEC. 11 Section nine of said act is hereby amended to read as follows:

SEC. 9 For the purpose of performing any duty under this act the irrigation board may appoint one of its members to conduct any hearing or investigation. Such member shall make a written report of his proceedings and shall state the evidence introduced at any hearing and his conclusions thereon. Upon such report, or upon such further inquiry as the irrigation board shall deem proper, the irrigation board may pass upon and decide any question under consideration at said hearing or investigation. The decisions of the irrigation board shall be final except as to questions, the determination of which are vested in the courts by this act or by the constitution of this state or by the constitution of the United States.

SEC. 12 Section ten of said act is hereby amended to read as follows:

SEC. 10 Prior to making any assessment, to provide funds for the construction or purchase of any project for the construction or purchase of which any conservation district shall have been formed, there shall be apportioned as hereinafter provided, to each constituent district or unit under such project the proportion to which it is entitled of all water stored or to be stored or diverted or to be diverted by such project for the irrigation of such district, and of all power to be developed in connection therewith, which proportion of such water and power shall be forever applied to the purposes of said district, provided, that any water or power that may be so apportioned and for which any district or unit has not, to the full extent thereof, a beneficial use, may be leased by such district or unit, with the consent of the irrigation board, to any other territory within or without the said conservation district; the other districts or units, embraced in said conservation district to be entitled, however, to the first right to so lease such surplus water or power. The apportionment of water and power

under this section shall be made by a special board of apportionment and confirmed by the irrigation board. The members of such special board of apportionment shall be three in number and shall be appointed by the irrigation board, subject, however, to the approval of two-thirds of the members of the advisory board hereinafter provided for. The members of such special board of apportionment shall be disinterested persons having no interest in any land within the conservation district within which such apportionment is to be made and not residing within such district. Before entering upon his duties each of the members of said special board of apportionment shall take and subscribe an oath that he is not in any manner interested in any real estate within said district, directly or indirectly, that he does not reside therein, and that he will perform the duties of a member of such board to the best of his ability. Said special board of apportionment shall determine, define and apportion to the several districts or units within said conservation district, and to the private corporations, mutual water companies and mutual ditch companies admitted to share in the benefits thereof, the amount and extent of the water to be produced, stored or diverted for the project contemplated by said conservation district and the amount and extent of the power to be produced or generated in connection therewith, and shall likewise determine, define and apportion the cost of the project, and shall make a report thereof to the irrigation board. Upon receiving such report the irrigation board shall fix a date for the hearing thereof, and notice to all persons in such conservation district shall be given by publication once a week for four successive weeks in a newspaper of general circulation published in each of the counties in which any portion of the said district is situated. Such hearing shall be held upon a date not less than sixty nor more than ninety days after the first publication of said notice, and affidavits of the publication of said notice in the manner herein provided shall be made and filed with the irrigation board before such hearing. In addition to the publication of such notice the secretary of the irrigation board shall mail a copy thereof to the governing boards of such other districts or political subdivisions of the state and to such private corporations, mutual ditch companies and mutual water companies as may be designated by the irrigation board. At the time set for the hearing the irrigation board shall hear and receive evidence in support of objections which may be presented to the apportionment so made, and shall thereupon make its order approving, modifying or rejecting such apportionment. Any person aggrieved by the order of the irrigation board may commence an action in the superior court of any county in which any part of said conservation district is interested to have said apportionment corrected, modified or annulled. Such action must be commenced within thirty days after said order has been made and filed in the office of the secretary of the irrigation board, and if not so commenced no action or defense shall thereafter be maintained attacking the legality of said apportionment in any respect.

All works constructed at the expense of any irrigation district created under this act, or for any component unit of a conservation district, or for which the same is assessed or charged for the repayment of moneys expended for construction, shall forever be devoted to the purposes of such district or unit under the administration of the irrigation board. No rates shall be charged by an irrigation district formed under the provisions of this act or by a conservation district for the use of water for irrigation therein or for power developed in connection therewith, except for the just proportion of such irrigation district or the units of such conservation district, or of the private corporations, mutual water companies or mutual ditch companies entitled to or receiving the benefits of the construction and operation of the works of said conservation district, for the expenses of the governing bodies and employees thereof and of the maintenance, operation, repair and supervision of the works constructed for the benefit of such irrigation district or conservation district, and except for the repayment of moneys appropriated and paid as the cost of construction of the said works and the payment of bonds issued therefor and the interest thereon.

It shall be the duty of the irrigation board, and said board shall have power to do all things necessary to that end, to control and supervise the distribution of the water and power apportioned as herein provided to the units of a conservation district and to the private corporations, mutual water companies and mutual ditch companies admitted to share in the benefits thereof.

Sec. 13. Section eleven of said act is hereby amended to read as follows:

Sec. 11. The irrigation board shall have power to contract with the United States and with the State of California for the repayment of moneys appropriated or expended in the construction of reservoirs, canals, ditches or other works necessary or convenient for any of the purposes herein mentioned. Such repayment shall be made from assessments upon the lands benefited by such works, or the proceeds of bonds issued thereon from payments made by private corporations, mutual ditch companies or mutual water companies contributing their proportion of the cost of constructing, operating and maintaining such works as provided in section six *b* of this act, or from revenues derived by the irrigation board for water or power leased or sold by the irrigation board as provided in this act, or from either all or any of said methods of repayment. The irrigation board may also deposit with the United States and with the state, bonds, notes, contracts, leases, agreements or other

obligations for the payment of money, issued or executed by irrigation districts formed under the provisions of this act or by conservation districts, or the component units of such conservation districts, the proceeds to be applied to said repayment upon such terms as may be agreed upon between the irrigation board and the United States or the State of California.

SEC. 14. Section twelve of said act is hereby amended to read as follows:

Sec. 12. The irrigation board shall have power to acquire within or without any irrigation district created under this act or any conservation district, from persons, associations or private corporations, by purchase, condemnation or other lawful means, any land, water, water rights, reservoirs, flumes, ditches, power lines, telegraph or telephone lines or other works or parts thereof necessary or convenient for the purposes herein mentioned, or necessary for the carrying out of any of the projects formed hereunder.

SEC. 15. Section thirteen of said act is hereby amended to read as follows:

Sec. 13. The chairmen or presiding officers of the governing bodies of the respective irrigation districts, reclamation districts, drainage districts and other political subdivisions of the state organized to promote irrigation, reclamation or drainage, constituting units of a conservation district created under this act and of the private corporations, mutual water companies and mutual ditch companies contributing to the cost of constructing, operating and maintaining the works of such conservation district, shall be and constitute an advisory board to consult with the irrigation board, and such advisory board shall perform such executive and administrative functions as may be determined from time to time by the irrigation board.

SEC. 16. Section fourteen of said act is hereby amended to read as follows:

Sec. 14. The irrigation board, except where special power is herein elsewhere conferred, shall have power to make, execute and carry out any agreements or contracts for the performance of any act or the construction of any works provided for in this act, and may make contracts for the sale or rental of unapportioned water or power for periods not to exceed forty years, upon such terms as the irrigation board shall prescribe. All revenues received by the irrigation board from such sales or rentals shall be apportioned to the districts constituting component parts of such conservation district and to the private corporations, mutual water companies and mutual ditch companies contributing to the construction of the project from which such revenues are derived. Such apportionment shall be made in the ratio of the respective amounts of assessments levied or charges made for the construction of the works in connection with which such revenues are derived.

For the purpose of carrying this act into effect and of accomplishing the ends and objects herein expressed and the development and utilization of the water resources of this state, conservation districts, irrigation districts, formed under the provisions of this act, reclamation districts and other political subdivisions of the state organized to promote irrigation, reclamation or drainage, and private corporations organized for the purpose of selling or distributing water or electric power for domestic, irrigation, manufacture, or other beneficial uses and purposes, and mutual water companies and mutual ditch companies, may enter into contracts or agreements with each other or with other districts, political subdivisions, corporations, associations or persons, for the development, appropriation or storage of water and the apportionment and distribution thereof and the division distribution and payment of the cost and expense of such development, appropriation, storage, apportionment and distribution. And every and all such contract or contracts shall be valid and binding, in accordance with their terms and provisions respectively, *provided, however*, that before any such contract or contracts shall go into force or effect or become binding for any purpose, the same shall be submitted to and approved by the irrigation board; *and provided further*, that where any such contract relates to or affects the sale, rental or distribution of water or electric power, or the beneficial use of water by a public utility, the same shall, before it goes into force or effect or becomes binding, be submitted to and approved by the railroad commission of the State of California. And all such contracts approved as herein provided, shall be binding and valid for all purposes, either in perpetuity or such term or terms as shall be specified or agreed upon therein or in the order or orders approving the same.

The provisions of this section are in aid of and in addition to other provisions of this act, and the same shall be construed and considered as so in aid of and in addition to, and not limited by or restricted by any of the other terms or provisions of this act. Nothing in this section contained shall be construed to affect or impair the organization or rights of mutual water companies or mutual ditch companies or the rights of the stockholders or members of such companies.

SEC. 17. Section fifteen of said act is hereby amended to read as follows:

Sec. 15. The irrigation board shall, upon the organization of any conservation district as in this act provided proceed to make or cause to be made, all necessary examinations, surveys, plans and estimates of cost for the storage, diversion and distribution of water and the generation of electric power in connection therewith, and the sale and distribution thereof as may be necessary or requisite to enable said board to ascertain and estimate the requirements and works necessary as aforesaid for the purposes of said conservation district and the probable cost and expense thereof, and in that connection may use and adopt all previous estimates, surveys and

reports it may have collected adapted to that purpose, and may employ all necessary engineers and other assistants for the accomplishment of said purposes, and the cost thereof shall be deemed a part of the expense of said project and shall be payable out of the funds of said district and may be included in any bond issue authorized for the purposes of said district.

Such estimate as is above provided for shall be in such form as shall be approved by said irrigation board and shall be entered in the minutes of said board and shall constitute a part of the records of said board, and the same, or a copy thereof, certified by the secretary of said board, shall be admissible as evidence in any proceeding before any court, commission or tribunal of this state wherein the matters therein set forth shall be admissible in evidence.

Whenever, for any of the purposes of this act, the irrigation board shall deem it necessary for the purposes of said district, or the levying of an assessment upon the property therein, or the issuance of bonds by said district, said board shall appoint three commissioners for such purpose or purposes. Such commissioners shall have no interest in any land in the district, either directly or indirectly, and each commissioner before entering upon his duties shall make and subscribe an oath that he is not in any manner interested directly or indirectly in any land in said district, and that he will perform the duties of commissioner to the best of his ability. Thereupon said commissioners shall proceed separately as to each unit within said district to view and assess upon the land within said district a sum sufficient to cover said estimated amount and shall apportion the same according to the benefits which will accrue to each unit within said district, and separately as to each tract of land within said unit. Such benefits to be estimated according to the benefits which will accrue to each tract of land in such unit by reason of the expenditure of said estimated sum, and shall estimate the same in gold coin of the United States.

Said commissioners shall prepare and certify a roll on which they shall state the name and address of the owner of each parcel of land in such unit, or if the name or address of any owner is unknown, then, that fact, also a description of each parcel of land by legal subdivisions or boundaries, and the total amount assessed against each parcel of land so described. No mistake in the name of the owner, or supposed owner of any parcel of land, shall invalidate the apportionment or assessment. A separate roll shall be made for the lands in each county where such unit includes land in more than one county. When completed said roll or rolls shall be filed with the irrigation board and certified copies of the particular roll for each county shall be filed with the county recorder of any county in which any lands within said unit may be, and each roll shall be open for inspection by the public for at least thirty days.

The irrigation board shall appoint a time and place not less than thirty days after said roll has been filed with said recorder or recorders when and where it will meet, within said conservation district for the purpose of hearing objection to said assessment and the apportionment thereof and notice of such hearing shall be published at least once a week for two successive weeks in some newspaper published in each county in which any lands within said district may be. At any time before or at the original date of such hearing, any person interested in any real estate upon which any charge has been apportioned and assessed, may file in the office of the secretary of said irrigation board written objections thereto, stating the grounds of such objections, which said statements shall be verified by the affidavit of such person or some other person who is familiar with the facts. Said irrigation board may postpone such hearing from time to time. At such hearing the irrigation board shall hear such evidence as may be offered touching the correctness of such assessment or the manner of its apportionment and may modify or amend the same and may reapportion all or any part of the entire assessment. No assessment or apportionment shall be increased except upon the hearing of objections thereto or after personal notice or notice by mail to the owner of the land upon which said increase is made. Said irrigation board must make and enter in its minutes an order approving said assessment and apportionment as finally fixed, and the decision of said irrigation board shall be final, and thereafter said assessment and apportionment shall be conclusive evidence of the validity of said assessment and apportionment, and no action or defense shall ever be maintained attacking the same in any respect. And the records of said irrigation board, or a copy thereof certified by its secretary shall be received in evidence in all or any of the courts of this state, or before any board or tribunal authorized to hear or consider any matter wherein the same shall be admissible as evidence. No change shall be made in said assessment or apportionment after the consideration, approval and fixing thereof by said irrigation board and all assessments upon the property of said district thereafter shall be levied in accordance therewith and consistent with the apportionment of benefits therein provided for and fixed, and if any assessments are called for or required in addition to the original amount estimated and apportioned for the purposes of said district, such additional amount shall be assessed, levied and raised in accordance with said apportionment and assessment of benefits so fixed in the first instance by said irrigation board. A certified copy of such assessment and apportionment roll as finally approved shall be filed in the office of the county recorder of each county in which any land within said district is situated. Such assessment and apportionment shall thereafter constitute a first

lien upon the land affected thereby until the full amount thereof is paid or until all bonds of the district issued thereon, together with the accrued interest, shall have been fully paid. The said irrigation board shall on the first Tuesday in May following the fixing and approval of said assessment and apportionment therein provided for, and annually thereafter on said date, levy an assessment, sufficient to raise the annual interest on the outstanding bonds of said district, and in any year in which any bonds shall fall due must increase such assessment to an amount sufficient to pay the principal of the outstanding bonds as they mature, also sufficient to pay in full all sums that may become due from the district before the time of collection of the next annual assessment, including an amount sufficient to pay in full the amount of any contract or obligation of the district which may come due during said year or may have been reduced to judgment. And to provide for and maintain a fund out of which the current and contingent obligations of said district can be paid in cash as they mature. In addition to the amounts estimated as necessary for the purposes aforesaid, a further levy of fifteen per cent additional shall be included and levied for the purposes of meeting any additional amounts that may be required on account of delinquencies and to insure the payment of all of the bonded indebtedness, including the interest thereon and other obligations of said district at maturity. Whenever there is a surplus in the funds of said district over and above all requirements as herein specified for the payment of the bonded indebtedness and interest thereon and accrued obligations of said district, such a surplus may be used and applied in retiring the outstanding bonds or any thereof of said district. The secretary of the irrigation board must compute and enter in a separate column of the assessment book the respective sums in dollars and cents to be paid as an assessment upon the property therein enumerated. In so doing, said secretary shall enter the names of the owners of such lands and the descriptions thereof in accordance with the last assessment roll of the county in which the said lands are situated. Such assessment must be so levied and computed as to be in accordance with the apportionment and assessment of benefits herein provided for and so that all lands within said district shall be assessed and required to pay in accordance therewith.

The secretary of said board shall forthwith deliver a certified copy of that portion of said assessment so directed to be entered by him, so far as it applies or appertains to any land within any county situated within said district to the county auditor of such county, and such auditor shall accept and receipt for the same and thereupon it shall be the duty of said auditor to include said assessment as an assessment against each parcel or tract of land therein described. It shall be the duty of said auditor to examine and ascertain as to any errors or discrepancies that may exist in said roll as to the ownership of or the descriptions of land as applied to any owner or owners thereof as compared with the assessment roll of the said county for such year, and if any such difference or discrepancies are found, it shall be the duty of said auditor to correct the same accordingly so that the said roll as to ownerships and descriptions of land and assessments thereof shall correspond to the assessment roll of said county and for such year. And it shall be his duty to audit, enter and certify the same to the tax collector of said county for collection in the same manner and form as county, school district and other taxes are included and certified by him to such tax collector, and all such assessments shall constitute a first lien upon the lands affected thereby as hereinbefore provided.

Upon receipt of the same from the auditor of such county it shall be the duty of the tax collector of said county to include the same as a separate entry and charge against the land therein described and to collect the same with the county, school district and other taxes so required to be collected by such county tax collector and to keep and deposit such district taxes in a separate fund, and when the same is collected it shall be the duty of such tax collector to pay the same over to the treasurer of such county at the same time and in the same manner as other taxes collected by him are paid over to such treasurer, and it shall be the duty of such treasurer to receive the same as other taxes are received by him and after receipt thereof to keep the same in a separate fund and upon receipt of same, or any part thereof, it shall be the duty of such county treasurer within thirty days thereafter to pay the same and all thereof to the treasurer of the State of California, who shall receive and keep the same and deposit the same in a separate fund to the credit of the said district, and to be paid out by him upon the order and approval of the said irrigation board.

All moneys received under contracts, leases or other arrangements by such conservation district from any canal companies, mutual or other water companies, reclamation districts, or from any corporations, individuals, or other sources not herein otherwise provided for, shall be collected by said irrigation board and by it deposited with the state treasurer, and thereafter to be disbursed as provided as to funds of such district under the order and direction of such irrigation board for the purposes and obligations of said district, including the payment and retirement of outstanding bonds with interest thereon.

From and after the time of the filing of such assessment roll of such district with the auditor of any county the taxes therein enumerated, levied and assessed, shall be regarded and treated as are the other taxes of said county or the school districts thereof and the same shall be included in and considered a part of such taxes and

the same shall become delinquent at the same time and in the same manner as such other taxes, and with respect to any delinquency or delinquent notices the same shall become delinquent and notice thereof shall be published with and at the same time and in the same manner as other delinquent taxes and the same shall be similarly treated for all purposes of notice and sale thereof for such delinquent taxes, and shall be subject to redemption from such delinquent district taxes at the same time and in the same manner and through the same officials as are such other taxes. And any and all charges and penalties in connection with such delinquency and interest thereon and penalties in connection therewith shall be similarly charged and collected, and the amounts so collected on account of any such delinquent taxes or interest or penalties thereon shall be received by the county treasurer and paid over to the state treasurer in the same manner as is hereinabove provided, and in the event of the sale of any property for delinquent taxes of such counties or other delinquent taxes, said district taxes shall be included therein and said property shall be sold therefor in connection with and including such other taxes, and upon a redemption thereof or upon a sale of said lands the said district taxes shall be included therein and together with interest and penalties thereon the same shall be received and paid over to the county treasurer, and by him paid over to the state treasurer, as hereinbefore provided.

SEC. 18 Section sixteen of said act is hereby amended to read as follows:

Sec. 16 At any time after the irrigation board shall have made the examinations, surveys, plans and estimates of cost for the storage, diversion and distribution of water, and for the other purposes enumerated in this act, and after the same has been entered in the minutes of said board and shall have also had assessed and apportioned upon the lands in said conservation district the charges and benefits and apportionments provided for in this act, and after such apportionment and assessment roll shall have been finally fixed and approved by the said board, and after the same has been entered in the minutes of the said board must, as soon as may be practicable, proceed and issue the bonds of said district for the purposes aforesaid.

The said board shall, in connection with the previous estimates made and adopted by it, estimate the amount of money necessary to be raised for such bond issue for the purposes of said district, as aforesaid, and shall ascertain and determine the same and enter its order to that effect in the minutes of said board. And whenever thereafter the construction fund has been exhausted by expenditures herein authorized, and it is necessary to raise additional money for such purposes, it shall be the duty of said board to estimate and determine the amount of money necessary to be raised for such additional purposes.

For the purposes of such bond issue, or additional bond issue, the said board shall be authorized to employ engineers and other assistants and make all such further examinations and estimates as may be necessary, to fix and determine such matters and the conclusion and estimates of said board shall be entered in its minutes. Said irrigation board shall by order entered in its records order a special election to be held at such places in said district as shall be designated by said irrigation board, and at least one such place shall be designated as a voting place in each unit of said conservation district at which said election there shall be submitted to the owners of land in said district the question of whether or not the bonds of said district shall be issued in the amount specified in the order of said board, and which amount shall be stated in the order for such special election. For all purposes of this act relating to signing petitions and voting at any election, and for all other purposes where the question of title to land claimed to be owned by such voter or owner is involved, the equalized assessment roll for the year last preceding in each county wherein any land of the said district is situated, shall be sufficient evidence of ownership of lands in the district. Guardians, executors, administrators and other persons holding land in a trust capacity under appointment of court may sign any such petition and may vote without obtaining any special authority therefor. Said irrigation board shall at the time of calling the said election designate in its order the voting places at which said election shall be held and where votes shall be cast and shall designate three land holders of the district to act as a board of election at each voting place.

Notice of such special election must be given by the irrigation board by posting notice thereof in at least three public places in each unit of the district at least twenty days prior thereto, and also by publishing such notice once a week for the same length of time in some newspaper of general circulation, published in each county in which any portion of said district may be situated, or if there be no newspaper published in any one of such counties, then in each county wherein such newspaper is published, and such notice must specify the time and place of holding said election and the aggregate face value of bonds proposed to be issued and the names of three land holders of said district to act as a board of election at each polling place. Affidavits of the publication and posting of such notice must be filed with the clerk of said irrigation board.

At such election each owner of lands in the district shall be entitled to vote in person or by proxy, and shall have the right to cast one vote for each acre of real

estate owned by him in the district, such ownership to be determined from the next preceding assessment roll of the county or counties in which the lands of the district are situated and the irrigation board shall, prior to the election, cause to be prepared and certified and furnished to the board of election at each polling place, a true and correct copy of each of said next preceding assessment rolls so far as such assessment roll applies to any lands within such district, which said certified rolls shall be used by the board of election in determining the number of votes each voter is entitled to cast. Executors, administrators, special administrators and guardians may cast the vote of the estates represented by them. No person shall vote by proxy at such election unless authority to cast such vote shall be evidenced by an instrument in writing, duly acknowledged and certified in the same manner as grants of real property and filed with the board of election.

The ballots cast at such election shall contain the words "bonds, yes" or "bonds, no" and also the name of the person casting the ballot, with the number of votes cast by him. A list of the ballots cast shall be made by the board of election containing the name of each voter, and, if the ballots be cast by proxy, the name of the person casting it and the number of votes cast by each and whether the same be cast for or against the issuing of bonds.

If any person appointed as a member of the board of election shall fail to attend at the opening of the polls, the voters then present, voting individually, may appoint in his place any land holder in the district. Each member of said board of election must, before entering upon his duties, take and subscribe an official oath, to faithfully perform his duties as an officer of such election, which oath may be administered by an officer authorized to administer oaths, or by a land holder in the district.

The polls shall be kept open from ten o'clock a m. of the day of election until five o'clock p m. of that day.

At the close of the polls the board of election shall at once proceed to canvass the votes and declare the result, and shall forward a certificate showing such result and the number of votes cast for and against the issuing of the bonds to the irrigation board and shall also deliver to the said irrigation board all ballots cast at such election and all documents and papers used at such election.

Said irrigation board shall, upon the receipt of such canvass and declaration of the result from the said board of election, proceed to examine the same and shall ascertain and declare the result as shown by such canvass and declaration, and shall enter an order in its minutes that the said proposition for the issuance of said bonds has been carried or defeated, as the case may be.

Fourthly, upon the declaration of the result of said election by said irrigation board the secretary of said board shall make a certified copy of the order of said board, declaring the result of said election, and shall forward said certified copy or copies to the recorder or recorders of the counties in which any land of said conservation district may be situated, and the same shall forthwith be filed and recorded in said recorder or recorders' office, and shall impart notice to all interested persons as to the result of said election.

Any person owning property within the said district, liable to assessment, may contest such election, by filing a written contest specifying the grounds of his objections thereto with said irrigation board, said written contest to be filed within thirty days after the declaration of the result of said election by said irrigation board, and if no such contest and objections be filed within thirty days no such contest and objections shall thereafter be received or filed. Such written contest shall specify the ground or grounds of contest to said election, and upon the filing of the same with said irrigation board shall expeditiously set the said contest for hearing, and shall have the right to postpone the hearing for such time as may be necessary, but not otherwise and shall expeditiously hear and determine the same. Said irrigation board shall upon the conclusion of said hearing of said contest proceed forthwith to enter its order and decision thereon. Such decision on the part of said irrigation board shall be final conclusive and binding upon all parties interested as to validity and as to result of such election and shall be subject to review only in the event suit is brought by the said district or by some person or corporation or association authorized to bring the same to determine the question of the validity of the said bond issue, and in the determination and adjudication of the question of the validity of said bond issue, as hereinafter specified, the court may review and consider the validity of said election for the issuance of said bonds, but in such action the certificate and determination of said irrigation board shall be received and accepted by the court as prima facie evidence of the result as to the validity of said election and the regularity of the canvassing, counting and return of the votes cast at said election. If a majority of the votes cast at such an election is in favor of the issuance of bonds, the irrigation board after canvassing the returns and declaring the result of said election shall cause bonds of such conservation district in the amount stated in the order for the election to be issued, executed and delivered to the state treasurer of the State of California. Said bonds shall be of the denomination of not less than one hundred dollars (\$100.00) nor more than one thousand dollars (\$1,000.00) each; they shall be signed by the president of the irrigation board and attested by the secretary thereof and shall be numbered consecutively in the order of their maturity,

The principal of said bonds shall be made payable, by an order entered into the minutes of the irrigation board, upon the first day of July or the first day of January, and in such years as the irrigation board may prescribe. Said bonds shall be payable serially within forty years from their date in the manner following, to wit:

Not less than five per cent of the aggregate face value of the bonds issued shall be payable each year beginning not later than the twentieth year from their date until the whole amount of said bonds have been paid.

The irrigation board shall place the bonds prepared pursuant to this act to the  
 credit of the district and may in its discretion direct the state treasurer to sell the  
 whole or any designated number of said bonds for the best price obtainable therefor,  
 but in no event for less than ninety per cent of the face value of said bonds and the  
 accrued interest thereon. Before making a sale of said bonds notice shall be given  
 by the state treasurer by publication at least once a week for three weeks in a news-  
 paper of general circulation published in the city of Sacramento, and also one or

 purchase of said bonds, or any part thereof. At the time appointed the state

treasurer shall open the bids and award the bonds to the highest responsible bidder. He may reject any and all bids. Any sale by the state treasurer and delivery of the bonds thereunder shall be conclusive evidence in favor of the purchaser and all subsequent holders of the bonds that such sale was made upon due authority and notice. The proceeds of sale of said bonds shall be placed in the state treasury to the credit of said district, and a proper record of such transaction shall be made upon his books. At any time after said bonds shall have been delivered to the state treasurer, an action may be commenced in the superior court of the county within which is situated the largest area of land within said district by the irrigation board in the name of the district or by any unit of said district or by any person owning property within the said district liable to assessment. It shall be sufficient to describe said lands as all lands in the district (naming it) without a more specific description. The summons shall be published once a week for three weeks in some newspaper of general circulation published in the county where the action is pending. Within thirty days after the first publication of summons any owner of land in such district, or any person interested, may appear and answer the complaint, which answer shall set forth the facts relied upon to show the invalidity of said bonds. The default of all defendants not so appearing may be entered. Such action shall be given precedence in hearing and trial over all other civil actions in such court and judgment rendered declaring such matter so contested either valid or invalid. Any party not in default may have the right to appeal to the supreme court within thirty days after entry of judgment and said appeal and the hearing thereof shall be expedited in said court. Judgment for the plaintiff in such proceedings shall be considered as a judgment in rem and shall be conclusive against said district and against all lands therein and all owners thereof and all other interested persons.

The irrigation board may draw warrants upon the state treasurer against the funds provided by sale of said bonds.

The money derived from the sale of any of said bonds shall be received by the state treasurer and shall by him be safely kept and placed to the credit of said district in a fund to be designated in the name of such district for the said district and may be drawn and expended upon warrants drawn against said fund as in this act provided.

Sec 19. Section seventeen of this act is hereby amended to read as follows:

Sec 17. The irrigation board shall, upon the organization of any irrigation district as in this act provided proceed to make or cause to be made all necessary examinations, surveys, plans and estimates of cost for the storage, diversion and distribution of water and the generation of electric power in connection therewith, and the sale and distribution thereof as may be necessary or requisite to enable said board to ascertain and estimate the requirements and works necessary as aforesaid for the purposes of said irrigation district and the probable cost and expense thereof, and in that connection may use and adopt all previous estimates, surveys and reports it may have collected adapted to that purpose, and may employ all necessary engineers and other assistants for the accomplishment of said purposes, and the cost thereof shall be deemed a part of the expense of said project and shall be payable out of the funds of said district, and may be included in any bond issue authorized for the purposes of said district.

Such estimate as is above provided for shall be in such form as shall be approved by said irrigation board and shall be entered in the minutes of said board and shall constitute a part of the records of said board, and the same, or a copy thereof, certified by the secretary of said board, shall be admissible as evidence in any proceeding before any court, commission or tribunal of this state wherein the matters therein set forth shall be admissible in evidence.

Whenever, for any of the purposes of this act, the irrigation board shall deem it necessary for the purposes of said irrigation district, or the levying of an assessment upon the property therein, or the issuance of bonds by said irrigation district, said board shall appoint three commissioners for such purpose or purposes. Such commissioners shall have no interest in any land in the irrigation district, either directly

or indirectly, and each commissioner before entering upon his duties shall make and subscribe an oath that he is not in any manner interested directly or indirectly in any land in said irrigation district, and that he will perform the duties of commissioner to the best of his ability. Thereupon said commissioners shall proceed to view and assess upon the land within said irrigation district a sum sufficient to cover said estimated amount and shall apportion the same according to the benefits which will accrue to each unit within said irrigation district, and separately as to each tract of land within said irrigation district. Such benefits to be estimated according to the benefits which will accrue to each tract of land in such irrigation district by reason of the expenditure of said estimated sum, and shall estimate the same in gold coin of the United States.

Said commissioners shall prepare and certify a roll on which they shall state the name and address of the owner of each parcel of land in such irrigation district, or if the name or address of any owner is unknown, then, that fact, also a description of each parcel of land by legal subdivisions or boundaries, and the total amount assessed against each parcel of land so described. No mistake in the name of the owner or supposed owner of any parcel of land shall invalidate the apportionment or assessment. A separate roll shall be made for the lands in each county where such irrigation district includes land in more than one county. When completed said roll or rolls shall be filed with the irrigation board and certified copies of the particular roll for each county shall be filed with the county recorder of any county in which any lands within said irrigation district may be, and each roll shall be open for inspection by the public for at least thirty days.

The irrigation board shall appoint a time and place not less than thirty days after said roll has been filed with said recorder or recorders when and where it will meet, within the county in which the greater portion of said irrigation district is situated for the purpose of hearing objection to said assessment and the apportionment thereof and notice of such hearing shall be published at least once a week for two successive weeks in some newspaper published in each county in which any lands within said irrigation district may be. At any time before or at the original date of such hearing, any person interested in any real estate upon which any charge has been apportioned and assessed, may file in the office of the secretary of said irrigation board written objections thereto, stating the grounds of such objections, which said statements shall be verified by the affidavit of such person or some other person who is familiar with the facts. Said irrigation board may postpone such hearing from time to time. At such hearing the irrigation board shall hear such evidence as may be offered touching the correctness of such assessment or the manner of its apportionment and may modify or amend the same and may reapportion all or any part of the entire assessment. No assessment or apportionment shall be increased except upon the hearing of objections thereto or after personal notice or notice by mail to the owner of the land upon which said increase is made. Said irrigation board must make and enter in its minutes an order approving said assessment and apportionment as finally fixed, and the decision of said irrigation board shall be final, and thereafter said assessment and apportionment shall be conclusive evidence of the validity of said assessment and apportionment, and no action or defense shall ever be maintained attacking the same in any respect. And the records of said irrigation board, or a copy thereof certified by its secretary, shall be received in evidence in all or any of the courts of this state, or before any board or tribunal authorized to hear or consider any matter wherein the same shall be admissible as evidence. No change shall be made in said assessment or apportionment after the consideration, approval and fixing thereof by said irrigation board and all assessments upon the property of said irrigation district thereafter shall be levied in accordance therewith and consistent with the apportionment of benefits therein provided for and fixed, and if any assessments are called for or required in addition to the original amount estimated and apportioned for the purposes of said irrigation district, such additional amount shall be assessed, levied and raised in accordance with said apportionment and assessment of benefits so fixed in the first instance by said irrigation board. A certified copy of such assessment and apportionment roll as finally approved shall be filed in the office of the county recorder of each county in which any land within said irrigation district is situated. Such assessment and apportionment shall thereafter constitute a first lien upon the land affected thereby until the full amount thereof is paid or until all bonds of the irrigation district issued thereon, together with the accrued interest, shall have been fully paid. The said irrigation board shall on the first Tuesday in May following the fixing and approval of said assessment and apportionment therein provided for, and annually thereafter on said date, levy an assessment, sufficient to raise the annual interest on the outstanding bonds of said irrigation district, and in any year in which any bonds shall fall due must increase such assessment to an amount sufficient to pay the principal of the outstanding bonds as they mature, also sufficient to pay in full all sums that may become due from the irrigation district before the time of collection of the next annual assessment, including an amount sufficient to pay in full the amount of any contract or obligation of the irrigation district which may come due during said year or may have been reduced to judgment, and to provide for and maintain a fund out of which the current and contingent obligations of said irrigation district can

be paid in cash as they mature. In addition to the amounts estimated as necessary for the purposes aforesaid, a further levy of fifteen per cent additional shall be included and levied for the purposes of meeting any additional amounts that may be required on account of delinquencies and to insure the payment of all of the bonded indebtedness, including the interest thereon and other obligations of said irrigation district at maturity. Whenever there is a surplus in the funds of said district over and above all requirements as herein specified for the payment of the bonded indebtedness and interest thereon and accrued obligations of said irrigation district, such a surplus may be used and applied in retiring the outstanding bonds or any thereof of said irrigation district. The secretary of the irrigation board must compute and enter in a separate column of the assessment book the respective sums in dollars and cents to be paid as an assessment upon the property therein enumerated. In so doing, said secretary shall enter the names of the owners of such lands and the descriptions thereof in accordance with the last assessment roll of the county in which the said lands are situated. Such assessment must be so levied and computed as to be in accordance with the apportionment and assessment of benefits herein provided for and so that all lands within said irrigation district shall be assessed and required to pay in accordance therewith.

The secretary of said board shall forthwith deliver a certified copy of that portion of said assessment so directed to be entered by him, so far as it applies or appertains to any land within any county situated within said irrigation district to the county auditor of such county, and such auditor shall accept and receipt for the same and thereupon it shall be the duty of said auditor to include said assessment as an assessment against each parcel or tract of land therein described. It shall be the duty of said auditor to examine and ascertain as to any errors or discrepancies that may exist in said roll as to the ownership of or the descriptions of land as applied to any owner or owners thereof as compared with the assessment roll of the said county for such year, and if any such difference or discrepancies are found, it shall be the duty of said auditor to correct the same accordingly so that the said roll as to ownerships and descriptions of land and assessments thereof shall correspond to the assessment roll of said county and for such year. And it shall be his duty to audit, enter and certify the same to the tax collector of said county for collection in the same manner and form as county, school district and other taxes are included and certified by him to such tax collector, and all such assessments shall constitute a first lien upon the lands affected thereby as hereinbefore provided.

Upon receipt of the same from the auditor of such county it shall be the duty of the tax collector of said county to include the same as a separate entry and charge against the land therein described and to collect the same with the county, school district and other taxes so required to be collected by such county tax collector and to keep and deposit such irrigation district taxes in a separate fund, and when the same is collected it shall be the duty of such tax collector to pay the same over to the treasurer of such county at the same time and in the same manner as other taxes collected by him are paid over to such treasurer, and it shall be the duty of such treasurer to receive the same as other taxes are received by him and after receipt thereof to keep the same in a separate fund and upon receipt of same, or any part thereof, it shall be the duty of such county treasurer within thirty days thereafter to pay the same and all thereof to the treasurer of the State of California, who shall receive and keep the same and deposit the same in a separate fund to the credit of the said district, and to be paid out by him upon the order and approval of the said irrigation board.

All moneys received under contracts, leases or other arrangements by such irrigation district from any canal companies, mutual or other water companies, reclamation districts, or from any corporations, individuals, or other sources not herein otherwise provided for, shall be collected by said irrigation board and by it deposited with the state treasurer, and thereafter to be disbursed as provided as to funds of such irrigation district under the order and direction of such irrigation board for the purposes and obligations of said irrigation district, including the payment and retirement of outstanding bonds with interest thereon.

From and after the time of the filing of such assessment roll of such irrigation district with the auditor of any county the taxes therein enumerated, levied and assessed, shall be regarded and treated as are the other taxes of said county or the school districts thereof and the same shall be included in and considered a part of such taxes and the same shall become delinquent at the same time and in the same manner as such other taxes and with respect to any delinquency or delinquent notices the same shall become delinquent and notice thereof shall be published with and at the same time and in the same manner as other delinquent taxes and the same shall be similarly treated for all purposes of notice and sale thereof for such delinquent taxes, and shall be subject to redemption from such delinquent irrigation district taxes at the same time and in the same manner and through the same officials as are such other taxes. And any and all charges and penalties in connection therewith shall be similarly charged and collected, and the amounts so collected on account of any such delinquent taxes or interest or penalties thereon shall be received by the county treasurer and paid over to the state treasurer in the same manner as is hereinabove provided, and in the event of the sale of any property for delinquent

taxes of such counties or other delinquent taxes, said irrigation district taxes shall be included therein and said property shall be sold therefor in connection with and including such other taxes, and upon a redemption thereof or upon a sale of said lands the said irrigation district taxes shall be included therein and together with interest and penalties thereon the same shall be received and paid over to the county treasurer, and by him paid over to the state treasurer, as hereinbefore provided.

SEC 20. A new section is hereby added to said act to be numbered eighteen to read as follows:

SEC 18. At any time after the irrigation board shall have made the examinations, surveys, plans and estimates of cost for the storage, diversion and distribution of water, and for the other purposes enumerated in this act, and after the same has been entered in the minutes of said board and shall have also had assessed and apportioned upon the lands in any irrigation district organized under the provision of this act the charges and benefits and apportionments provided for in this act, and after such apportionment and assessment roll shall have been finally fixed and approved by the said board, and after the same has been entered in the minutes of the said board must, as soon as may be practicable, proceed and issue the bonds of said irrigation district for the purposes aforesaid.

The said board shall, in connection with the previous estimates made and adopted by it estimate the amount of money necessary to be raised for such bond issue for the purposes of said irrigation district, as aforesaid, and shall ascertain and determine the same and enter its order to that effect in the minutes of said board. And whenever thereafter the construction fund of said irrigation district has been exhausted by expenditures herein authorized, and it is necessary to raise additional money for such purposes, it shall be the duty of said board to estimate and determine the amount of money necessary to be raised for such additional purposes.

For the purposes of such bond issue, or additional bond issue, the said board shall be authorized to employ engineers and other assistants and make all such further examinations and estimates as may be necessary to fix and determine such matters and the conclusion and estimates of said board shall be entered in its minutes. Said irrigation board shall by order entered in its records order a special election to be held at such place or places in said irrigation district as shall be designated by said irrigation board, at which said election there shall be submitted to the owners of land in said irrigation district the question whether or not the bonds of said district shall be issued in the amount specified in the order of said board, and which amount shall be stated in the order for such special election. For all purposes of this act relating to signing petitions and voting at any election, and for all other purposes where the question of title to land claimed to be owned by such voter or owner is involved, the equalized assessment roll for the year last preceding in each county wherein any land of the said irrigation district is situated, shall be sufficient evidence of ownership of lands in the irrigation district. Guardians, executors, administrators and other persons holding land in a trust capacity under appointment of court may vote without obtaining any special authority therefor. Said irrigation board shall at the time of calling the said election designate in its order the voting place or places at which said election shall be held and where votes shall be cast and shall designate three land holders of the irrigation district to act as a board of election at each voting place.

Notice of such special election must be given by the irrigation board by posting notice thereof in at least three public places in such irrigation district at least twenty days prior thereto, and also by publishing such notice once a week for the same length of time in some newspaper of general circulation, published in each county in which any portion of said irrigation district may be situated, or if there be no newspaper published in any one of such counties, then in each county wherein such newspaper is published; and such notice must specify the time and place of holding said election and the aggregate face value of bonds proposed to be issued and the names of three land holders of said irrigation district to act as a board of election at each polling place. Affidavits of the publication and posting of such notice must be filed with the secretary of said irrigation board.

At such election each owner of lands in the district shall be entitled to vote in person or by proxy, and shall have the right to cast one vote for each acre of real estate owned by him in the irrigation district, such ownership to be determined from the next preceding assessment roll of the county or counties in which the lands of the irrigation district are situated and the irrigation board shall, prior to the election, cause to be prepared and certified and furnished to the board of election at each polling place, a true and correct copy of each of said next preceding assessment rolls so far as such assessment roll applies to any lands within such irrigation district, which said certified rolls shall be used by the board of election in determining the number of votes each voter is entitled to cast. Executors, administrators, special administrators and guardians may cast the vote of the estates represented by them. No person shall vote by proxy at such election unless authority to cast such vote shall be evidenced by an instrument in writing, duly acknowledged and certified in the same manner as grants of real property and filed with the board of election.

The ballots cast at such election shall contain the words "Bonds, Yes" or "Bonds, No" and also the name of the person casting the ballot, with the number of votes

cast by him. A list of the ballots cast shall be made by the board of election containing the name of each voter, and, if the ballots be cast by proxy, the name of the person casting it and the number of votes cast by each and whether the same be cast for or against the issuing of bonds.

If any person appointed as a member of the board of election shall fail to attend at the opening of the polls, the voters then present, voting individually, may appoint in his place any land holder in the irrigation district. Each member of said board of election must, before entering upon his duties, take and subscribe an official oath, to faithfully perform his duties as an officer of such election, which oath may be administered by any officer authorized to administer oaths, or by a land holder in the irrigation district.

The polls shall be kept open from 10 o'clock a.m. of the day of election until 5 o'clock p.m. of that day.

At the close of the polls the board of election shall at once proceed to canvass the votes and declare the result, and shall forward a certificate showing such result and the number of votes cast for and against the issuing of the bonds to the irrigation board and shall also deliver to the said irrigation board all ballots cast at such election and all documents and papers used at such election.

Said irrigation board shall, upon the receipt of such canvass and declaration of the result from the said board of election, proceed to examine the same and shall ascertain and declare the result as shown by such canvass and declaration, and shall enter an order in its minutes that the said proposition for the issuance of said bonds has been carried or defeated, as the case may be.

Forthwith, upon the declaration of the result of said election by said irrigation board, the secretary of said board shall make a certified copy of the order of said board, declaring the result of said election, and shall forward said certified copy or copies to the recorder or recorders of the counties in which any land of said irrigation district may be situated, and the same shall forthwith be filed and recorded in said recorder or recorders' office, and shall impart notice to all interested persons as to the result of said election.

Any person owning property within the said irrigation district, liable to assessment, may contest such election, by filing a written contest specifying the grounds of his objections thereto, with said irrigation board, said written contest to be filed within thirty days after the declaration of the result of said election by said irrigation board, and if no such contest and objections be filed within thirty days no such contest and objections shall thereafter be received or filed. Such written contest shall specify the ground or grounds of contest to said election, and upon the filing of the same with said irrigation board it shall expeditiously set the said contest for hearing, and shall have the right to postpone the hearing for such time as may be necessary, but not otherwise, and shall expeditiously hear and determine the same. Said irrigation board shall, upon the conclusion of said hearing of said contest, proceed forthwith to enter its order and decision thereon. Such decision on the part of said irrigation board shall be final, conclusive and binding upon all parties interested as to validity and as to result of such election and shall be subject to review only in the event suit is brought by the said irrigation district or by some person or corporation or association authorized to bring the same to determine the question of the validity of the said bond issue, and in the determination and adjudication of the question of the validity of said bond issue, as hereinafter specified, the court may review and consider the validity of said election for the issuance of said bonds, but in such action the certificate and determination of said irrigation board shall be received and accepted by the court as prima facie evidence of the result as to the validity of said election and the regularity of the canvassing, counting and return of the votes cast at said election. If a majority of the votes cast at such an election is in favor of the issuance of bonds, the irrigation board shall after canvassing the returns and declaring the result of said election cause bonds of said irrigation district in the amount stated in the order for the election to be issued, executed and delivered to the state treasurer of the State of California. Said bonds shall be of the denomination of not less than one hundred dollars (\$100.00) nor more than one thousand dollars (\$1,000.00) each, they shall be signed by the president of the irrigation board and attested by the secretary thereof and shall be numbered consecutively in the order of their maturity, and shall bear interest at the rate not exceeding six per centum per annum, payable semi-annually on the first day of January and the first day of July in each year, at the office of said state treasurer, upon the presentation of the proper coupons therefor. Said bonds shall be payable serially within forty years from their date in the manner following, to wit:

Judgment for the plaintiff in such proceedings shall be considered as a judgment in rem and shall be conclusive against said district and against all lands therein and all owners thereof and all other interested persons.

The irrigation board may draw warrants upon the state treasurer against the funds provided by sale of said bonds.

The money derived from the sale of any of said bonds shall be received by the state treasurer and shall by him be safely kept and placed to the credit of said irrigation district in a fund to be designated in the name of such irrigation district for the said irrigation district and may be drawn and expended upon warrants drawn against said fund as in this act provided.

On page 3, of the printed bill, strike out beginning with line 30 to and including line 18, on page 5, and insert in lieu thereof the following:

3658*b* 1 Whenever the board of supervisors of any county in the state shall by ordinance elect to have a map for assessment purposes prepared under the provisions of this section, the assessor, tax collector, and surveyor shall constitute a commission to be known as the "county assessment map commission," whose duty it shall be to direct and supervise the preparation by the surveyor of such map. For the purposes of said assessment map, said commission shall divide the county into sections and shall give to each section a name or number or both, and there shall be exhibited on said assessment map under such sections and section names or numbers and, in all cases where the lots or parcels of land owned or taxed form part of city or subdivision blocks, under blocks and block numbers, the separate lots or parcels of land owned or taxed within the county. The several lots and parcels of land shown on such map shall be designated by lot numbers, which in each block shall commence with number one and continue numerically upward for as many such lots or parcels as shall be comprised therein.

2 Such assessment map shall be compiled from maps on file in the public offices of the county, or from surveys made by the surveyor under the supervision of said commission, or from both such maps or surveys. All surveys and the field notes thereof made for the purposes of such assessment map shall be filed in the office of the surveyor and shall become a part of the public records of the county. The official title and place of record and the area covered by each map on file used in compiling such assessment map, and the date of, and area covered by, each survey made therefor shall be clearly endorsed on such assessment map, to the end that each

delineation thereon shall be accurately identified as being one shown on a map or indicated in a deed on file in the public offices of the county, or one established by a survey made under the provisions of this section.

3. Whenever such assessment map has been completed as to any section or sections into which the said commission shall have subdivided the county, the same shall, as to the section or sections completed, be certified by the commission, and upon approval by the board of supervisors shall be filed in the office of the county surveyor. Two copies of convenient size and scale shall be made and certified, one for the use of the assessor and another for the use of the tax collector, and the same shall be substituted for use during the fiscal year beginning July first thereafter in the office of the assessor in making assessments, and in the office of the tax collector in collecting taxes, and the assessor, in listing in the assessment book land included within the section or sections shown by such assessment map, shall describe the same by section, block and lot number according to said map, instead of in the manner directed in section three thousand six hundred fifty of the Political Code; *provided, however*, that every tract of land containing more than six hundred and forty acres, and which has been sectionized by the United States government shall be assessed for the purposes of taxation and listed in the assessment book by sections or fractions of sections, and not by reference to any assessment map prepared under the provisions hereof.

4. The assessment map prepared hereunder for use during any fiscal year shall be officially known and designated as and entitled "----- assessment map" (the blank space being filled in to show the year), and shall constitute a permanent official record; *provided, however*, that in preparing the assessment map for any fiscal year it shall not be necessary to remap any portion of the area covered by the assessment map of the previous fiscal year in which no changes in lot or block lines have taken place, but all such portions of the map of the previous fiscal year shall be incorporated into and become by endorsement thereon a part of the map then being prepared. In all cases where, by reason of official changes made in blocks or changes made in lot lines, it shall be necessary to remap, the block and lot numbers used in the map of the previous fiscal year shall be continued wherever possible, to the end that so far as possible the separate lots and parcels of land shall bear the same section, block and lot numbers upon the assessment map from year to year. Section areas or numbers shall not be changed from year to year without the consent of the board of supervisors.

Motion carried.

## PRESENTATION OF PETITIONS.

The following petition was presented, and ordered printed in the Journal:

By Mr. Finley:

We, the undersigned, members of the Board of Education and teachers of the public school system of the city of Santa Barbara, do hereby urge you to use your influence against the following bills:

Assembly Bill No. 880 (against blackbirds, mudhens, meadowlarks and yellowhammers).

Assembly Bill No. 888 which would allow children under 18 years of age to hunt without a license.

Assembly Bill No. 288, which would allow owners of growing crops, gardens, vineyards and young trees, and their employees, to hunt within one mile of their land without a license.

Assembly Bill No. 962, which offers a bounty on roadrunners, butcherbirds, bluejays, English sparrows, five of our hawks and the great horned owl.

Senate Bill No. 60 (against yellowhammers.)

We believe that the passage of these measures would mean a decided backward step in the work for bird protection, as well as a detriment to the agricultural interests of the State.

We do heartily endorse Assembly Bill No. 149, which prohibits children under 14 years of age from procuring hunting licenses.

BENJ. BUDWELL,

ANNA H. CONANT,

HELEN K. NORTHPROP.

JOHN T. JOHNSTON.

E. C. ROEDER.

A. C. OLNEY, Superintendent,

And 79 others.

## EXPLANATIONS OF VOTES

The following explanations of votes were received and ordered printed in the Journal:

I opposed this amendment of Mr. Pettis, J. A. to Assembly Bill No. 172, relating to Sunday closing, on the ground that the closing of saloons on Sunday is and should be a matter for local control, Los Angeles having exercised this right in causing saloons to be closed on Sundays for years. And for the further reason that continuous amendments prevent the author of the bill bringing the matter to vote, which he has a right to do, involving relief of the laboring people, not the liquor question.

BERT L. FARMER

Also:

I believe that the author of this measure is entitled to have his bill voted upon without the liquor question being injected into the same, and I believe the matter of Sunday closing should be allowed to remain a matter of local option.

CHAS. W. LYON.

REASSEMBLED.

At one o'clock and thirty minutes p m. the Assembly reconvened.  
Speaker Young in the chair.

STATEMENT BY THE SPEAKER.

I desire at this time to lay before the Assembly certain figures which may be of service in determining the rapidity with which we must proceed in order to complete the work we may be justified as anticipating to be still before us.

During the session of 1915 the Assembly took final action on 640 bills. There will probably be introduced into this session at least seven and one-half per cent less bills than were introduced last session. Assuming (for it can be only an assumption) that we vote this session on proportionately the same number of bills as was the case last session, we may properly expect to desire final action on about seven and one-half per cent less than 640 bills, or 592 bills.

We have up to the present time this session taken final action on 291 bills, which, upon the foregoing assumption, will leave 301 bills still before us. According to our rules, which we must observe, we have before us exactly 144 days for the consideration of Assembly bills, or an average of 21 bills per day to be subjected to a third-reading roll call, either for passage or rejection.

Now the fact is that there have been very few days this session, if any, in which we have voted upon as many as 21 third-reading bills. Moreover during the past five days (except for a series of appropriation bills which were passed within an hour without debate) there have been exactly 21 bills voted upon, or the quota for the entire five days which now seems before us for each day's work, and this in spite of the fact that we have all this time known the exact date of our final adjournment.

I wish to assure the members that I am not presenting these figures in any spirit of criticism, or with any wish to unduly curtail profitable and legitimate debate. I do, however, wish the members, for the sake of their own bills, to frown upon frivolous or unnecessary debate, as well as to encourage punctual and faithful attendance upon the sessions of the Assembly. I trust that every moment of our time may be profitably employed, and that the ensuing week may see a considerably better record than the average of 4 bills per day which has been maintained for the past five days.

I appreciate the industrious attitude of the present Assembly, and the generous manner in which each member has cooperated to help make its work a success. I only desire, while there is yet time, that the members may so aid in shaping the work of the next two weeks, that we may avoid having any important legislation left upon our calendar at the end of the present session.

## MESSAGE FROM THE GOVERNOR—(OUT OF ORDER).

The following message from the Governor was received and read:

## EXECUTIVE DEPARTMENT, STATE OF CALIFORNIA.

*To the Assembly of the State of California:*

In accordance with section 16, of Article IV of the Constitution, I return to you herein without my approval Assembly Bill No. 182.

Assemblyman Charles W. Lyon, who introduced the bill, has asked me to veto it for the reasons set forth in the following statement to me:

"Because of an error in the copying of that portion of the bill which is simply a repetition of the old law, which words will appear in line 13 of the bill as engrossed, more particularly referring to the word 'amount', which, in the old law, is and which should be the word 'value'. The new bill has for its purpose the correcting of an existing evil in connection with the procedure relating to the release of attachments and is a very necessary law, but the error in this word would render the whole law on this subject unworkable and would not make good sense. The evil referred to will be corrected by the passage of Assemblyman Manning's bill covering the amendment to the same section and containing the same words, which will undoubtedly be presented for your signature later on in the session, thereby reaching the evil which I sought to correct and which, by the error referred to, has rendered my bill impracticable."

For the reasons, therefore, that Assemblyman Lyon has given, I veto this bill.

WM. D. STEPHENS, Governor.

Dated: SACRAMENTO, CALIFORNIA, April 5, 1917.

The question being put: Shall Assembly Bill No. 182 become a law notwithstanding the veto of the Governor?

A resolution to propose to the people of the State of California an amendment to section fourteen of article one of the constitution, relating to the taking of private property for public use

SEC. 14 Private property shall not be taken or damaged for public use without just compensation having first been made to, or paid into court for, the owner, and no right of way shall be appropriated to the use of any corporation, except a municipal corporation or to a county, until full compensation therefor be first made in money or ascertained and paid into court for the owner, irrespective of any benefits from any improvement proposed by such corporation, which compensation shall be ascertained by a jury, unless a jury be waived, as in other civil cases in a court of record, as shall be prescribed by law: *provided*, that in an action in eminent domain brought by the state, or a county, or a municipal corporation, or a drainage, irrigation, levee, or reclamation district, the aforesaid state or political subdivision thereof or district may take immediate possession and use of any right of way required for a public use whether the fee thereof or an easement therefor be sought upon first commencing eminent domain proceedings according to law in a court of competent jurisdiction and thereupon giving such security in the way of undertakings or money deposits as the court in which such proceedings are pending may direct, and in such amounts as the court may determine to be reasonably adequate, to secure to the owner of the property sought to be taken immediate payment of just compensation for such taking and any damage incident thereto as soon as the same can be ascertained according to law. The taking of private property for a railroad run by steam or electric power for logging or lumbering purposes shall be deemed a taking for public use, and any person, firm, company or corporation taking private property under the law of eminent domain for such purposes shall thereupon and thereby become a common carrier

Dated Thursday, April 5, 1917.

The question being on the adoption of the resolution.

The roll was called, and the resolution adopted by the following vote:

AYES—Messrs. Anderson, Arnerich, Ashley, Baker, Brackett, Brown, T. V., Bruck, Byrne, Calahan, Collins, Edwards, Ekward, Friedman, Gebhart, Gelder, Godsil, Goetting, Green, L., Greene, C. W., Harris, Hawes, Hawson, Hayes, D. R., Hayes, J. J., Hilton, Hudson, Johnston, J. W., Kline, Lyon, C. W., McCray, Madison, Manning, Marks, Mathews, Mitchell, Morris, Morrison, Parker, Pettis, J. ## STATEMENT BY THE SPEAKER.

I did not vote on the question of withdrawing Assembly Bill No. 1291 from the Public Morals Committee for the same reason as stated on page 20 of the Assembly Journal of March 28th—namely, that it seems wise that a presiding officer should not vote on questions of re-reference or withdrawal of bills, unless such vote is necessary to break a tie or otherwise to decide the action of the Assembly. Had I cast a vote it would, of course, have been to sustain the committee.

C. C. YOUNG

A record of such oaths shall be preserved as part of the field-notes of the survey.

SEC. 8. Every licensed land surveyor is hereby authorized to make surveys relating to the sale or subdivision of lands, the retracing or establishing of property or boundary lines, public roads, streets, alleys, or trails; and it shall be the duty of each surveyor, whenever making any such surveys, except those relating to the retracing or subdivision of cemetery or town lots, whether the survey be made for private persons, corporations, cities, cities and counties, or counties, to set suitable monuments, legibly marked with the initials of the surveyor setting them.

they must revoke his license. If it shall appear that the accused has been guilty of negligence or of unprofessional conduct not amounting to dishonesty, or other less serious offense, they may, at their discretion, revoke such license or suspend the same for such time as they may deem proper. Should the accused fail, neglect, or refuse to appear and answer to such charge or accusation, at the time and place appointed, the board shall proceed to take testimony pertinent thereto and may, upon a prima facie showing that good cause exists therefor, suspend or revoke the license of the accused. It shall be the duty of every county surveyor in this state, immediately upon ascertaining that any licensed land surveyor has been guilty of any dishonest or unprofessional conduct, or is incompetent, or has wilfully violated any of the provisions of this act, to submit a written statement of the facts to the board accompanied by a list of the names and addresses of the persons, so far as known to him, competent to testify concerning the same. #### MESSAGES FROM THE GOVERNOR—(OUT OF ORDER)

The following messages from the Governor were received and read:

EXECUTIVE DEPARTMENT.  
STATE OF CALIFORNIA.

*To the Assembly of the State of California:*

In accordance with section 16 of Article IV of the Constitution, I return to you herein without my approval Assembly Bill No 550, relating to the protection of fish.

This bill was introduced by Assemblyman Johnston at the request of the Fish and Game Commission. That body, desiring to meet objections to the measure, has asked that I veto it, a new bill having been drawn and introduced that will remove the causes of complaint in this bill.

In compliance, therefore, with the request of the Fish and Game Commissioners, I veto Assembly Bill No 550.

WM D STEPHENS, Governor

Dated SACRAMENTO, CALIFORNIA, April 6, 1917

EXECUTIVE DEPARTMENT.  
STATE OF CALIFORNIA

*To the Assembly of the State of California:*

In accordance with section 16 of Article IV of the Constitution, I return you herein without my approval Assembly Bill No 220.

I have submitted the same to the Attorney General and have been advised by him that section 14 thereof, which purports to provide that every justice of the peace may collect for his own use in civil cases such fees as are now or may hereafter be allowed by law in addition to the salary fixed by said section, is in derogation of section 15, Article VI of the Constitution as amended October 10, 1911.

In view of the advice of the Attorney General I, therefore, veto Assembly Bill No. 220.

WM. D. STEPHENS, Governor

Dated SACRAMENTO CALIFORNIA, April 6, 1917

EXECUTIVE DEPARTMENT.  
STATE OF CALIFORNIA

*To the Assembly of the State of California:*

In accordance with section 16 of Article IV of the Constitution I return to you herein without my approval Assembly Bill No 52.

I have gone into a very thorough examination of this bill and have consulted at length regarding the legal principles involved. I have come to the conclusion that the creation of liens upon personal property of transient guests should not be extended at this time.

For this reason, therefore, I veto this bill.

WM. D STEPHENS Governor.

Dated SACRAMENTO, CALIFORNIA, April 6, 1917.

EXECUTIVE DEPARTMENT.  
STATE OF CALIFORNIA.

*To the Assembly of the State of California:*

In accordance with section 16, of Article IV of the Constitution, I return to you herein without my approval Assembly Bill No. 668, designed to exempt from the

civil service law all appointees of the State Supreme Court and the District Courts of Appeal.

In my recent message to the Legislature I set forth my views upon civil service as follows:

"Efforts to weaken and ultimately to break down civil service should be stoutly resisted. The merit system is the only effective antidote yet discovered for the spoils system in public service. I would strongly urge its extension rather than its restriction."

We are proud of our judiciary, and this pride is, in part, due to the freedom of our courts from political influence. Our people look to the courts for an example of adherence to their approved policies.

To favor this exemption would open the door to many similar requests, and tend to destroy civil service within our State.

In my judgment to exempt attaches and employees of the judicial department from the civil service law would tend to weaken the principles of the merit system.

For these reasons, therefore, I veto this bill.

WM. D. STEPHENS, Governor.

Dated SACRAMENTO, CALIFORNIA, April 5, 1917.

Action on the vetoes of the above bills pending.

## ON PRISONS AND REFORMATORIES.

ASSEMBLY CHAMBER, SACRAMENTO, April 9, 1917.

MR. SPEAKER: Your Committee on Prisons and Reformatories, to which was referred Senate Bill No. 1141—An act to add a new section to the Penal Code to be numbered 1202a, relating to imprisonment in the state prison—has had the same under consideration, and respectfully reports the same back and recommends that it do pass.

HAYES, J. J., Chairman.

## STATEMENT

The following statement by Messrs Johnson, A. B., and Gebhart, was received and ordered printed in the Journal:

There was published in the *Sacramento Bee* on Friday, April 6th, what purported to be a report of the action of the Committee on Drainage, Swamp and Overflowed Lands, over which appeared the following headlines:

"Tabling of Tarke Bill is Signal Victory for Flood Control Program. This Means Death of Measure. Author Himself Helps to Defeat Bill by Voting with Majority."

Said published report did not recite the fact that the motion to table the Tarke bill was actually defeated with Mr. Tarke voting against said motion and that later at the request of his friends, and thinking it might be in the interest of his people, he with such friends later agreed that the bill be placed on the table and that such relief as possible would still be before the committee for consideration. Mr. Tarke did vote the second time in the affirmative.

We who were present at this committee meeting feel that said publication did a great injustice to Assemblyman Tarke, whose faithful stand by his constituents never wavered for one instant, and we feel gratified that this Assembly regrets this injustice and has ordered that this statement be published in the Journal.

## MOTION TO POSTPONE RECONSIDERATION.

Mr. Johnson, A. B., moved that the consideration of the motion to reconsider the vote whereby Assembly Constitutional Amendment No. 31 was adopted, be continued until the next legislative day.

Motion carried.

By Mr. Morris:

SAN FRANCISCO, April 9, 1917.

*To the Honorable, the Assembly, Sacramento, California*

GENTLEMEN: Pursuant to instructions of the Sunday Closing League, whose membership is composed of retail grocers' associations, retail clerks' associations, master barbers' associations, journeyman barbers' unions, master bakers, journeyman bakers, butcher shop proprietors and butcher shop workmen, the undersigned desires to direct your attention to Assembly Bill No. 172, commonly known as the Sunday Closing Bill.

This measure was in no way inspired by religious or puritanical motives. As a matter of fact the question of religion was furthest from the thoughts of the proponents of this measure. It was prompted by economic conditions existing in various trades and callings in this State, conditions that are uncivilized and un-American, and which tend to debase human nature, as it has been well stated, that uninterrupted labor breeds discontent and crime.

There are thousands of men, women and children who by force of circumstances are compelled to work in institutions such as grocery stores, butcher shops, barber shops, etc., from twelve to fourteen hours each day, seven days each week. This condition naturally denies the right of these workers one day's relaxation in seven for both mental and physical recreation.

It has long been established that one day's rest in seven is essential for the welfare of society in general, and this custom is observed by our more progressive private institutions as well as our legislative, judicial and executive bodies of this State, who refrain from using Sunday as a day of labor except in cases of urgent necessity.

We, the proponents of this measure, selected Sunday as the day of rest for the sole and only reason that Sunday is the recognized and universal day of rest and recreation in all civilized lands, particularly in this, the grandest country of all. We have selected Sunday so that we may be able to go to the beaches, to the mountains, or places of worship, or do as we may on the same day when our fellow-workers are enjoying the music, special attractions and special services that usually prevail on the universal day of rest and recreation.

We desire to call to your attention the fact that no less than ninety per cent of those trades, professions and callings that are exempted by this bill are now enjoying the Sunday rest through the power of their trade and professional organizations, or the customs adopted by such successful institutions as the large stores in all cities, banks, etc.; that this bill is not special legislation; that it does not infringe upon anyone's or any group's religious liberties is evident, from the fact that a provision is made in this measure exempting those who observe some other day than Sunday as a day of worship.

The United States Congress, in making its appropriation act for the postal service for the fiscal year of 1913 passed the following law "That hereafter post-offices of the first and second class shall not be open on Sundays for the purpose of delivering the mail to the general public, but this provision shall not prevent the prompt delivery of special delivery mail"

Your attention is called to the fact that here is a Sunday closing law with certain exemptions.

In 1914 the United States Congress passed what is known as the Seaman's Bill, which was signed by the President of the United States. In that bill is contained the clause which reads as follows "That sailors and firemen shall not be required to work on Sundays while in port"

On page 10 Code of Civil Procedure of California, we find a statute defining Sunday as a holiday and non-judicial day, a day upon which the courts are closed except in urgent cases such as the issuance of injunctions, writs of habeas corpus, receiving verdicts from juries or instructing juries. So here, too, we find Sunday recognized as a day of rest, except in urgent cases, and Assembly Bill No. 172 is in thorough accord with the code.

On November 3, 1914, the California State Legislature adopted the following amendment to the Constitution, known as section 17 1/2 "The legislature may, by appropriate legislation, provide for the establishment of a minimum wage for women, and minors, and may provide for the comfort, health, safety and general welfare of any and all employees. No provision of this constitution shall be construed as a limitation upon the authority of the legislature to confer upon any commission now or hereafter created such power and authority as the legislature may deem requisite to carry out the provisions of this section"

Assembly Bill No. 172 has been drawn in strict accord with this constitutional provision. In 1914 the proponents of this measure, through the initiative, placed this measure upon the ballot, and in spite of the fact that an erroneous title was given our measure, making it appear as an eight-hour day proposition, and in spite of the fact that all of the rural communities combined with those engaged in the liquor business opposed us, nearly three hundred thousand voters indicated their approval by casting their votes in favor of same.

Much has been said with reference to the abridgment of personal liberties and personal rights.

The writer begs leave to call to your attention that those who are to be benefited by the passage of this act are now deprived of their personal liberties and rights, owing to the fact that their station in life compels them to work in the institutions and places of business that do not observe at least one day in which to rest their minds, their bodies, and which deprives them of the opportunities of enjoying one day in seven as may best suit their particular whims and desires.

Another important point to be considered in favor of the passage of this proposed measure is that both employer and employee are working in unison and harmony for the successful passage of this act.

In behalf of the thousands of citizens of the State of California composing the Sunday Closing League the undersigned most earnestly and respectfully petitions your august body to pass Assembly Bill No. 172.

Assuring you of our highest appreciation, we are

Most respectfully yours,

SUNDAY CLOSING LEAGUE  
Per C. M. FEIDER.

By the Speaker:

WHEREAS, The government of the United States for more than two years has submitted, in the interest of peace, to the numerous wrongs heaped upon it by the imperial German government; and

WHEREAS, The President and Congress of the United States have declared that a point has been reached in our affairs where peace is no longer possible owing to the fact that the German government is now waging war upon us, destroying our commerce and taking the lives of our citizens while engaged in the peaceful pursuit of their legitimate activities, therefore, be it

*Resolved*, That the San Francisco Labor Council, in regular session assembled this sixth day of April, 1917, pledges its loyal and united support to the nation and the State in this hour of trial and invites the constituted authorities to call upon it for any service that it may be possible for it to render to our common country in the interest of justice and freedom and humanity; and, be it further

*Resolved*, That we express our faith and confidence in the high purposes that have governed President Woodrow Wilson in his conduct of the nation's affairs during the trying years of the great world conflict, and assure him of our readiness to follow his lead in the efforts to maintain the rights of humankind; and, be it further

*Resolved*, That copies of these resolutions be forwarded to the President, the members of the California delegation in Congress, and to the Governor and the Legislature of the State of California

Adopted by the San Francisco Labor Council

##### AMENDMENT NUMBER TWO

On page two of the printed bill after the period following the figure one strike out the remainder of the line and all the balance of page two; also strike out all of pages 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 31 and 32, and insert in lieu thereof the following:

Section two of said act is hereby amended to read as follows:

Sec. 2. There is hereby created a board to be known as the reclamation board.

Sec. 2. Section three of said act is hereby amended to read as follows.

Sec. 3. The reclamation board is hereby directed to procure data and make surveys and examinations upon the Sacramento and San Joaquin rivers and their tributaries and the adjacent overflow basins for the purpose of perfecting the plans contained in the report mentioned in section one of this act, and making additional plans for the San Joaquin and Sacramento rivers and their tributaries and for the Mokelumne river. The state engineer shall advise and assist the reclamation board, whenever and to such extent as may be by said board requested, and shall be reimbursed by said board for any necessary expense so incurred by him. All maps, records and engineering data prepared or obtained by the state engineer for the use of the reclamation board shall be deposited in the office of said board and remain part of its records.

Sec. 3. Section thirteen of said act is hereby amended to read as follows:

Sec. 13. For the purpose of making or apportioning any assessment or assessments upon the lands within said Sacramento and San Joaquin drainage district, for any project therein or unit thereof, a permanent board of assessors shall be appointed by the governor, consisting of three assessors, all of whom shall be disinterested persons not owning any lands within said drainage district and each of whom, before entering upon his duties, shall make and subscribe an oath that he is not in any manner interested in any real estate within said district directly or indirectly and that he will perform the duties of assessor to the best of his

ability. Said assessors shall be exempt from the provisions of the civil service laws of this state and shall hold office during the pleasure of the governor, and each shall receive as compensation for his services not to exceed twenty-five dollars per day, to be fixed by the reclamation board, for each day occupied in the discharge of his duties, together with all expenses necessarily incurred therein, payable out of the funds of the Sacramento and San Joaquin drainage district or of any project therein or unit thereof properly applicable thereto. Such board of assessors may employ such additional clerks, engineers or assistants as may be necessary in their opinion to make or apportion said assessments with expedition, and the cost thereof shall be payable out of the same funds as provided for the payment of the compensation of said assessors. The determination of a majority of said board of assessors shall be final and conclusive respecting all assessments excepting for the judicial proceeding hereinafter provided.

Whenever in the opinion of the reclamation board it shall be necessary to levy an assessment upon any lands within said drainage district, for any project therein or unit thereof, or for any of the purposes specified in this act, said board shall cause an assessment to be levied upon such lands within said drainage district for such purposes. Before levying any such assessment the reclamation board shall prepare plans and specifications of the work to be done, together with estimates of the cost thereof. The plans to be carried out shall be divided by said board into separate projects or units in such manner as will in its judgment best facilitate the construction of the work, and the assessment for each particular project or unit shall be levied according to the benefits upon the lands therein.

Said board shall enter in its minutes a resolution to the effect that the execution of each such separate project or unit which they may determine upon is a public necessity. Each particular project or unit shall be designated by the board in such resolution by name and number. All assessments or apportionments thereof and all plans and funds intended for or connected with the execution of each particular project or unit shall be designated by such name and number and shall be kept separate and shall be used only for the purpose of carrying out each particular project or unit.

Said board of assessors shall assess in the manner hereinafter provided upon the lands within said Sacramento and San Joaquin drainage district for any project therein or unit thereof, whenever required by the reclamation board, such sums as the reclamation board may determine are necessary to construct, carry on and conduct the work therein, and shall apportion the same according to the benefits that will accrue to each tract of land in said district, or affected by such project or unit, respectively by reason of the expenditure of said sums of money.

Said assessors, after viewing the lands to be assessed, shall make a separate list of the lands to be assessed in each county, which list shall contain a description, of the tracts of land assessed by swamp land surveys, legal subdivisions or other boundaries or references sufficient to identify the same, the name of the owner, if known, or if unknown, that fact, and the amount of the charge assessed against each tract, and such other matter, if any, deemed necessary by said board of assessors. Each tract shall also be identified in the assessment list for each county by a distinctive number to be known as the reference number of the tract. The name of the owner of land which is or is supposed to be property of the estate of a deceased person in course of administration may be stated as "estate of (such person, naming him) deceased." When there are two or more owners or supposed owners of any tract of land, partly known and partly unknown, the assessment may be to such known owner or owners by name and to other owners unknown. No mistake in the name of the owner, or supposed owner, of any real estate shall invalidate the assessment. In the assessment list for any county the assessors may make use of any abbreviation in common use in that county, without explanation thereof. The assessors may also in the assessment list for any county make use of other abbreviations, provided a schedule and explanation thereof with reasonable certainty shall, unless printed on each page of such assessment list, be prefixed to said assessment list and a reference thereto written, printed or stamped on each page of said assessment list whereon any such abbreviation is used. In case any land shall in the assessment list for any county be described in whole or in part by reference to a map, plat or survey, which map, plat or survey shall be on file or of record in any public office, it shall be sufficient in such description to designate such map, plat or survey by name, number or other designation sufficient to identify the same in a schedule of such maps, plats and surveys, which schedule shall be prefixed to said assessment list and shall set forth with reasonable certainty where each such map, plat or survey may be found, and shall be referred to by a reference written, printed or stamped on each page of said assessment list whereon such method of description is relied upon. The assessors may also prepare or cause to be prepared a map or maps of the whole or any part or parts of the lands to be assessed with sufficient detail to indicate thereon and identify the several tracts of land to be separately assessed or any of them, each of which such separate tracts shall be designated on such map or maps by a distinctive number. Each of such maps shall be inscribed and designated as "reclamation board assessment map No. ——" giving each map a distinctive number. Any such map may consist of any number of sheets attached together and designated as one map.

Such map or maps when approved by the reclamation board, shall be certified by the secretary of said board as having been so approved, and shall be filed for record in the office of the county recorder of the county wherein the land indicated on such map or maps is situated. Thereupon and thereafter, for the purpose of said assessment, or of any future assessment levied by said reclamation board, the assessment list for any county may, for the description of any tract of land so indicated on any such map, refer to such map, and to the number by which such tract is designated on such map, and such reference, if used for that purpose, shall be a sufficient description of such tract for the purposes of such assessment list, and for the purposes of the notice of delinquent sale, certificate of sale and deed in pursuance of such sale, and all other proceedings under this act based upon such assessment. No provision of any other statute of this state relative to the filing or recording of maps in the office of the county recorder shall apply to the maps in this section referred to, *provided, however*, that the maps herein referred to shall have no legal effect for any purpose except for the convenient reference to and description of the tracts of land indicated thereon for the purposes of description of such tracts of land by reference thereto in the matter of assessments levied by the reclamation board and the collection thereof and acts and proceedings based thereon as herein provided. No fee shall be charged by any such county recorder for the filing for record of such map as in this section provided.

Said assessment lists when completed and certified by the board of assessors shall be filed with the secretary of the reclamation board and said secretary shall deposit with the county treasurer of each county in which any lands so assessed are situated, the assessment list for such county, and the same shall be open for inspection by the public for at least thirty days. Within five days after the assessment list for each such county has been so deposited with the county treasurer, the reclamation board shall cause to be mailed to each landowner named therein, who shall have filed with said board a written statement setting forth his name and post-office address and the location of the land in which he is interested, a notice that such assessment list has been so deposited with the county treasurer and that it affects land assessed to the addressee of such notice. Failure to mail such notice shall not, however, invalidate any of the proceedings under this act. The board of assessors shall appoint a time and place not less than thirty days after said list has been deposited with the county treasurer when and where it will meet in each county wherein any of the lands so assessed are situated for the purpose of hearing objections to said assessments, and notice of such hearings in each county shall be filed with the county treasurer and published once a week for two weeks prior to the date of such hearing in some newspaper of general circulation published in such county and proof of such publication duly verified filed with said county treasurer and also in the office of the reclamation board. At any time before the date of such hearing any person interested in any land upon which any charge has been assessed, may file with said board of assessors written objections to such assessment, stating the grounds of such objections, which said statement shall be verified by the affidavit of such person or some other person who is familiar with the facts. At such hearing the board of assessors shall hear such evidence as may be offered touching the correctness of such assessment or the manner of its apportionment, and may modify or amend the same, or may reapportion all or any part of the entire assessment. Unless the aggregate of the whole assessment shall be modified or amended so as to cause a difference of more than two and one-half per cent greater or less than the original amount thereof it shall be deemed that the assessment has not been substantially modified and no necessity shall exist for a reapportionment by the board of assessors.

If said assessment shall be reapportioned, the board of assessors shall give two weeks notice as before, filing the proof thereof with the reclamation board, and proceed to hear objections in each county affected, as before, and shall then reconsider said assessment. After said hearings have been held and completed the board of assessors shall modify, where required, the assessment lists theretofore deposited with the county treasurer of each of the counties wherein property covered by the assessment is situate.

The board of assessors shall thereupon make and file with the reclamation board a final certificate that such assessment has been finally fixed and shall deposit with each of said county treasurers a duly certified copy of such certificate. Thereupon such assessment list as finally modified or reapportioned shall be conclusive evidence, except in the judicial proceeding hereinafter provided, that said assessment has been levied and apportioned in all respects according to law. Thereafter a copy of such assessment lists for each of said counties, as finally fixed, both duly certified by the board of assessors, shall be filed with the reclamation board.

Within ten days after such assessment lists are filed with the reclamation board it shall institute in the superior court of the State of California in and for the county of San Joaquin, or in some other county in which lands affected by the assessment are situate, if none of such lands lie within San Joaquin county, a proceeding to validate said assessment, which proceeding shall be instituted by filing a copy of said assessment lists together with a copy of said final certificate of the board of assessors, both duly verified by the board of assessors, with the

county clerk of the county in which said action is initiated. Thereupon the reclamation board shall notify the governor of the fact of such filing, and there upon it shall be the duty of the governor to designate three judges of the superior court in the State of California, from counties outside the said Sacramento and San Joaquin drainage district, and it shall be the duty of said three judges to sit in bank in said proceeding so initiated. Upon the filing of said assessment lists it shall be the duty of said county clerk to fix a time not less than thirty nor more than forty days from the date of such filing when objections shall be heard to the said assessment list, and thereupon it shall be the duty of the said clerk to give notice of the time and place of such hearing by publishing a notice once a week for four weeks in a newspaper of general circulation published in each county in said district wherein any lands covered by said assessment are situate, and if no newspaper be published in the county or if for any reason such notice can not be published therein, then such notice shall be given in a newspaper of general circulation published in an adjoining county. And said court may, for the convenience of witnesses, and shall upon written demand of ten interested parties, filed in the proceeding, by order duly given and made, conduct sessions and take evidence in said cause in any county in the district in which lands affected by said assessment are situate. At any time before the date for such hearing fixed in the notice published by said county clerk any person interested in any land upon which any charge has been assessed may file in said proceeding written objections to such assessment, stating the grounds therefor, which said statement shall be verified by the affidavit of such person or of some other person who is familiar with the facts. Affidavits showing such publications shall, prior to such hearing, be filed with said county clerk. At said hearing or any adjournments thereof the said court shall hear such evidence as may be offered touching the correctness or the equity of such assessment, and as expeditiously as possible shall make and enter its judgment approving the same or annulling, modifying or amending the same or any part thereof. Such judgment shall refer to the assessment apportioned to each county separately and it shall be sufficient to refer to the portions of said assessment lists which are affected thereby. The decision of a majority of said court shall be final and conclusive and no appeal from the judgment given and made by said court shall be had.

Thereupon and thereafter said assessment lists, unless annulled, embracing any modifications made shall be conclusive evidence that said assessment has been apportioned according to the benefits that will accrue to each tract of land in said district, project or unit respectively by reason of the expenditure of the sums of money provided therein. A certified copy of such judgment referring to said assessment lists shall be filed with the reclamation board and a copy thereof, so far as the same relates to the lands in each of said counties shall be deposited with the county treasurer of each county wherein an assessment list has been filed. The board of assessors shall thereupon make such entries or modifications upon such assessment lists as may be required by said judgment, and certify the same.

In the event that said assessment be annulled as a whole it shall be the duty of said assessors to make a new assessment, as provided in this act, and thereafter the same proceeding shall be had as herein provided.

No objection to said assessment shall be considered by such court unless such objection shall have been made in writing to the board of assessors as hereinbefore prescribed, and, excepting in the action above mentioned, no action or defense shall ever be maintained attacking the said assessment in any respect.

At any time within sixty days after such assessment has become final by the rendition of a judgment in said judicial proceeding and depositing a certified copy of such judgment with the county treasurer, the whole thereof upon any tract may be paid in cash and thereupon the county treasurer shall issue his receipt therefor, which receipts shall be furnished by the reclamation board. The county treasurer shall endorse the fact and date of such payment on the assessment list, and thereupon the lien of such assessment upon such tract shall cease. Report of such payment shall be made by the county treasurer to the secretary of the reclamation board, and the amounts so received shall be by the county treasurer within one month deposited with the state treasurer and by him kept to the credit of the proper funds of the district, project or unit thereof.

SEC 4. Section fourteen of said act is hereby amended to read as follows:

Sec 14. From the time said certified copy of the judgment rendered in said judicial proceeding shall be deposited with the county treasurer of each such county, which shall be endorsed thereupon by said county treasurer, such assessment shall constitute a lien upon the lands in said county so assessed and shall impart notice to all subsequent purchasers or incumbrancers or other persons acquiring interest in or lien upon said lands.

Except where bonds shall have been authorized to be issued, all assessments shall be paid at such times and in such manner, respectively, as the said reclamation board from time to time shall, by an order entered in its minutes, determine. Notice thereof shall be given by the secretary, who shall enter in its minutes a copy thereof, which said notice may be in substantially the following form:

## SACRAMENTO AND SAN JOAQUIN DRAINAGE DISTRICT.

After the said installment has become delinquent the reclamation board must publish in each county where such delinquencies exist in one notice a list of all of said delinquencies in such county at least once a week for two weeks in some newspaper of general circulation published in such county, which notice shall contain a description of each parcel of land assessed within the said county wherein such installment is delinquent, as such description appears on the assessment list, the name of the owner to whom it is assessed or a statement that it is assessed to unknown owners, if such is the fact, the amount of the installment delinquent on such parcel, the amount of penalty thereon and a notice that each of said parcels will be sold at public auction by said county treasurer in front of the court house of said county at a specified day and hour, which shall not be less than thirty nor more than ninety days from the date of delinquency, to pay such delinquent installment and penalty. At the time stated in said notice the county treasurer shall sell each parcel of land described in said notice to the highest bidder unless prior thereto he shall have received payment in full of said delinquent installment, together with such penalty. No bid for any parcel shall be accepted less than the aggregate sum then due on said installment thereon, including such penalty, and such sales shall be made for cash. If no bid is made for any parcel at such sale equal to the amount of the installment delinquent thereon, including such penalty, the treasurer shall bid in and sell said parcel to said Sacramento and San Joaquin drainage district, or such project, for the amount of said installment and penalty. The treasurer shall execute to each purchaser, including said drainage district, a certificate of sale, which certificate of sale shall be recorded by said purchaser in the county recorder's office of said county. Out of the proceeds of said sales the county treasurer shall transmit to the state treasurer the amount due on said property, as shown in said notice, together with the penalty thereon, and the state treasurer shall place the same in the proper fund of said Sacramento and San Joaquin drainage district or of any project or unit thereof for which said assessment has been made. The county treasurer shall pay to the owner of said property any surplus remaining after such payment to the state treasurer, after deducting all charges and expenses for making such sales. The county treasurer may, if directed by the reclamation board, postpone said sale from time to time for not less than ten nor more than thirty days by written notice posted at the place of sale.

Any person interested in the said land may redeem the same at any time within one year after the date of sale by paying to the county treasurer for such purchaser a sum equal to the purchase price stated in the certificate with interest thereon at the rate of twelve per cent per annum from the date of sale to such redemption, together with the amount remaining due and unpaid of any installment upon any assessment on said land under this act, with the penalty herein prescribed for delinquency, if any. If no redemption shall be made within one year the reclamation board, upon demand and the surrender of such certificate of purchase, and the delivery of a certificate of the county treasurer that no redemption has been made within such year from sale, shall execute to the purchaser, his heirs or assigns, a deed of conveyance of the parcel of land described in such certificate, which deed shall convey to the grantee therein named the said land free and clear of all incumbrances except state, county and municipal taxes, assessments levied or assessed by statutory authority, and the unpaid balance of the said or any assessment made by said drainage or any reclamation district, each installment whereof may be called and collected by law provided except that no parcel sold and conveyed to the Sacramento and San Joaquin drainage district until redeemed or until sold and disposed of by the reclamation board, shall thereafter be subject to sale by the treasurer for delinquent installments of any assessment levied under this act. Every deed by the reclamation board purporting to be executed under this section shall be prima facie evidence of the truth of the matters therein recited and of ownership by the grantee of the lands

therein described. All deeds herein required to be executed by the reclamation board may be executed by the president and secretary thereof on behalf of said board.

Where such property shall have been so deeded to the Sacramento and San Joaquin drainage district and shall not have been sold, the same may be thereafter sold and conveyed by the reclamation board acting for and on behalf of said district, but only for a sum not less than all called and unpaid installments of all assessments thereon levied under the authority of this act or any amendments thereof, with accrued interest and penalties, and the deed executed in pursuance of such sale shall convey said property free of all incumbrances except state, county and other municipal taxes, assessments levied or assessed by statutory authority and the unpaid balance of all assessments of said drainage district or any reclamation district.

The remaining portion not yet ordered paid by the reclamation board of the assessment upon any tract of land may be voluntarily paid in full at any time after the lien of such assessment has accrued and before the same has become delinquent.

Where bonds of such district, project or unit thereof, have been authorized to be issued on such assessments, the assessments shall bear interest from the day on which said bonds are dated until the bonds issued thereon shall have been fully paid and discharged. The reclamation board shall annually thereafter, before the first day of July of each year, by an order entered in its minutes, ascertain and determine the total amount necessary to be collected for the payment of the principal and interest of all of such bonds which will or may become due on the first day of January and the first day of July of the succeeding year, and thereafter and before the first day of September of each year prepare in duplicate, retaining one original thereof, and shall cause the other original thereof to be certified by its secretary and delivered to the county treasurer of each county wherein are situated any of the lands covered by such assessment upon which said bonds have been issued, a statement of the proportion of such assessment necessary to be collected for such year, to which there shall be added and collected an additional amount of fifteen per cent of the installment so due to cover possible delinquencies which said additional sum, together with such installment, constitute the amount to be collected and paid into the bond fund and shall be known as the installment for bonds. Such installment for bonds shall, unless otherwise determined by the reclamation board, by an order entered in its minutes, a copy of which, duly certified, shall be transmitted to the county treasurer of each of said counties, be payable in two equal portions, except as herein provided, the first of which shall be due and payable on the third Monday in October, and shall be delinquent on the first Monday in December next thereafter at six o'clock p.m., and the remaining portion if said first installment has not become delinquent, may be paid at any time before the last Monday in April next at six o'clock p.m., at which time the same shall become delinquent.

For convenience in entering payments of such installment for bonds, the reclamation board shall furnish to the county treasurer of each county affected an annual collection list in which shall be set forth the reference number of each tract of land assessed and the name of the owner to whom assessed, as stated in the original assessment list, and the total amount assessed upon each tract and the amount to be collected thereon for that year, together with appropriate columns for the entry of payments, sales and redemptions, and the county treasurer shall enter thereon, in the proper column, all payments, with date of payment, the word "Sold" with date of sale, in case of sales for delinquency, and the words "Sold to the District" with date of sale, in the case of sales to the district, and shall also enter the word "Redeemed" with date of redemption, in case such redemption be made. Said county treasurer shall also make a report to the reclamation board, as often as requested, of all entries so made by him on such collection list.

When either portion of any such installment for bonds shall become delinquent a penalty of one dollar and twenty per cent of the amount thereof on each tract shall be added thereto and collected for the use of the bond fund of said district, on any project or unit thereof for which said assessment has been levied. If both portions of said installment are not paid before the last Monday in April at six o'clock p.m., the reclamation board shall thereupon publish in each county where such delinquencies exist a notice of delinquency and sale in the same manner in this section hereinbefore provided. At the time stated in said notice the county treasurer shall sell each parcel of land described in said notice to the highest bidder unless prior thereto he shall have received payment in full of said delinquent installment, together with such penalty. No bid for any parcel shall be accepted less than the aggregate sum then due on said installment thereon, together with such penalty, except that the treasurer may receive from any purchaser at their face value, in lieu of cash, bonds of said district, project or unit thereof, issued on such assessment, or their interest coupons, then matured or to mature within six months after such sale. Any bond or coupon so received in payment shall be by the treasurer forthwith cancelled and transmitted to the state treasurer. If the entire amount of any such bond or coupon tendered in payment shall not be required to complete payment of the purchase money, the treasurer shall endorse thereon as paid the amount of such purchase money credited

thereon. There shall be credited to such bond fund the amount of purchase money paid in bonds or coupons on such delinquent sales, and for all sums endorsed as paid upon account of purchase money on any bonds or coupons, specifying the same, a statement of which shall be furnished by the county treasurer to the state treasurer. Any parcel of land bid in and purchased by the Sacramento and San Joaquin drainage district shall be held in trust for the bond fund of such district, project or unit, and may be sold and conveyed by said reclamation board or their successors in office at any time after the expiration of said redemption period of one year at public or private sale and with or without notice to any person paying the amount for which said parcel was bid in by said treasury at such delinquent sale with interest thereon at the rate of twelve per cent per annum, compounded yearly from the date of such delinquent sale, and also the amount of all subsequent installments then delinquent, with accrued interest and penalties thereon. Such payment may be made either in cash or in matured bonds and coupons issued upon said assessment taken at their face value, and the reclamation board shall execute a deed to such purchaser at such sale conveying said property free of incumbrances except state, county and other municipal taxes, assessments levied or assessed by statutory authority, and the unpaid balance of the said or any assessment made by said drainage district or any reclamation district. If any land so held by the Sacramento and San Joaquin drainage district shall remain unsold after the final installment of the assessment shall have been collected by payment or sale, then the reclamation board shall sell all such lands so held by said drainage district at public auction to the highest bidder for cash upon two weeks published notice substantially in the manner provided for notice upon delinquent sales, and shall deposit the proceeds of such sale with the state treasurer to the credit of such bond fund. Any surplus remaining in such bond fund greater than is necessary to pay all of the amounts due or to become due during the ensuing year may, in the discretion of the reclamation board, be devoted to the purchase in the open market and at the fair market price thereof of any bonds other than bonds of said drainage district available for purchase by savings banks in this state, which shall thereupon be delivered to the state treasurer to be held by him for the benefit of said bond fund until the reclamation board shall direct him to sell the same, whereupon the state treasurer shall sell the same and credit the proceeds to said bond fund, and said board shall direct such sale to be made whenever necessary for payment of such bonds of the district or interest thereon. Any balance remaining in such bond fund, after payment in full of the principal and interest of all outstanding bonds issued upon any assessment, shall be held for the benefit of the lands upon which said assessment was made and in proportion to such assessment, and may be distributed to the persons entitled by the reclamation board.

If within one year from the time said bonds have been authorized to be issued, as in this act provided, the same can not be sold or disposed of, the reclamation board may, by an order duly entered in its minutes, and a copy duly certified sent to the county treasurer of each county wherein lands covered by said assessment are situated, cancel all proceedings taken in connection with such issue, and may thereafter call such assessment from time to time as they shall determine, and shall proceed with the construction of the works for such district, project or unit thereof, as they may determine.

Sec 5. Section fifteen of said act is hereby amended by adding the following:

Said warrants when issued and registered pursuant to this act may be lawfully purchased or received in pledge for loans by banks, trust companies, guardians, executors, administrators and special administrators, or by any public officer or officers of this state or of any county, city, or city and county or other municipal or corporate body within this state having or holding funds which they are allowed by law to invest or loan.

Sec 6. Section thirty of said act is hereby amended to read as follows:

Sec. 30. If any part or portion of this act shall for any reason be held or found to be unconstitutional, the validity of the remaining parts or portions of this act shall not be hereby affected. The legislature hereby declares that it would have passed this act, and each and every part and portion thereof, notwithstanding that any one or more parts or portions thereof may be held or found to be unconstitutional.

Sec 7. Twenty new sections are hereby added to said act, to be known as sections five and one-half, seven and one-half, thirty-two, thirty-three, thirty-four, thirty-five, thirty-six, thirty-seven, thirty-eight, thirty-nine, forty, forty-one, forty-two, forty-three, forty-four, forty-five, forty-six, forty-seven, forty-eight and forty-nine, and to read as follows:

Sec. 5½. Members of the reclamation board shall hereafter be appointed by the governor and confirmed by the senate. Recess appointees shall qualify and enter upon their duties until their appointment is acted upon by the senate at its next regular session. If not then confirmed, their membership with the board shall cease.

Sec 7½. The state hereby accepts the provisions of an act of congress entitled "An act to provide for the control of the floods of the Mississippi river and of the Sacramento river, California, and for other purposes," approved March 1, 1917 (Public No. 367—64th Congress H. R. 14777).

Sec. 32. The reclamation board shall prepare complete detailed plans, specifications and estimates of cost for completing the construction of the Sacramento flood control project based upon the report of the California debris commission mentioned in section one of this act, with such modifications, amendments and additional plans as have been or may hereafter be adopted by the board, which plans, specifications and estimates shall be prepared and completed in detail for the construction of the said project, and in such manner as to ascertain as nearly as the same can be estimated the entire total cost for completing the construction of the whole project, including all administrative, engineering and other expense which is or will be involved in the construction of the entire project. These plans and specifications may exclude such portions of said Sacramento flood control project as are to be undertaken by the United States or the State of California, jointly or severally.

These plans, specifications and estimates shall exclude such separate portions or projects forming part of the whole project, heretofore or hereafter determined upon by the board and for which separate assessments have been heretofore levied, by the board or hereafter levied, unless the board shall, and the said board may at its option, abandon the separate consideration and execution thereof and abandon the separate assessments levied therefor, in which case all plans and works relating to such separate portions or projects and all existing obligations of the board of the Sacramento and San Joaquin drainage district relating thereto shall be included in and form part of the said general plans, specifications and estimates for completing construction of the whole Sacramento flood control project as aforesaid.

The board shall also estimate as nearly as possible the time which will be required to complete construction of the entire project.

When these plans, specifications and estimates have been completed and approved by the board they shall be known and designated as the official plan for completing construction of the Sacramento flood control project and shall be filed in the office of the board and there remain as a permanent record.

Sec. 33. No land not situated within the territory to be designated as the Sacramento assessment district of the Sacramento and San Joaquin drainage district shall be assessed for the cost of any part of the said Sacramento flood control project, and the said Sacramento assessment district of the Sacramento and San Joaquin drainage district shall constitute all of that portion of said Sacramento and San Joaquin drainage district lying northerly of the following described line.

Commencing where the west line of the east one-half of section one, township four north, range five east, Mount Diablo base and meridian intersects Dry creek on the north boundary of San Joaquin county, thence following the center line of said Dry creek and its meanderings to the Mokelumne river, thence down the center line of the Mokelumne river to where the said river branches into the north fork and the south fork; thence down the center line of the south fork of the Mokelumne river to Little Connection slough, thence down the center line of Little Connection slough to the center line of the San Joaquin river, thence up the center of the San Joaquin river to the mouth of Whiskey slough, thence up the center line of Whiskey slough to the center of the dredger cut along the north and west sides of McDonald island, thence westerly and southwesterly along said dredger cut to its intersection with Middle river, thence up the center line of Middle river to the dredger cut running northwesterly along the southwesterly side of Mandeville island, thence northwesterly along the center line of said dredger cut to its intersection with Connection slough, thence westerly along the center line of Connection slough to its intersection with Old river, thence due west to the center line of Holland cut so called, being the dredger cut along the easterly side of the Holland tract, thence northerly along said Holland cut to the center of Sand Mound slough; thence southwesterly and westerly along Sand Mound slough and Taylor slough to the northeast corner of section twenty-one, township two north, range three east, Mount Diablo base and meridian, thence westerly along the channel between Jersey island and the Spring tract to the center of Dutch slough, thence down the center line of Dutch slough to the San Joaquin river; thence due north to the center line of the San Joaquin river; thence down the center of San Joaquin river to the westerly boundary of the Sacramento and San Joaquin drainage district.

Sec. 34. When the official plan aforesaid for completing construction of the Sacramento flood control project has been finally approved, adopted and filed in the office of the reclamation board, the board of assessors shall thereupon prepare in the manner hereinbefore provided an assessment to be levied upon the lands situated within the boundaries of said Sacramento assessment district to pay the cost of such improvement, which assessment shall be prepared levied, apportioned and collected according to the benefits that will accrue to each tract of land in said district respectively by reason of such improvement, in the manner in this act provided.

When such assessment has been completed and has been finally fixed and determined by the judgment in said judicial proceeding as hereinbefore provided, then and thereupon all lands within said Sacramento assessment district which are not included in said assessment, and which are not included in any assessment previously levied by said reclamation board as finally fixed and approved for carrying out any

particular project, shall be and are hereby excluded from the Sacramento and San Joaquin drainage district, and the reclamation board shall at once proceed to ascertain and determine by an order entered upon its minutes an accurate description of the lands so excluded, and shall cause a certified copy of such order to be recorded in the office of the county recorder of each county in which any of such excluded lands are situated, and thereupon all such lands described in said order shall be and are hereby excluded from said Sacramento and San Joaquin drainage district and shall no longer be subject to assessment thereon.

The board shall thereupon determine whether the construction of the Sacramento flood control project shall be carried on as a whole or in units, and if it shall determine that the construction thereof shall be carried on as a whole, the board shall so declare by an order entered upon its minutes. And a copy thereof, duly certified by the secretary of the board, shall be deposited in the office of the county treasurer of each county in said Sacramento assessment district in which lands covered by such assessment are situated.

Should the board determine to carry out and construct the Sacramento flood control project in units it shall whenever the construction of any unit has been determined upon, by an order entered upon its minutes, determine and declare the unit to be constructed, and the cost thereof, and shall certify the same to the board of assessors, thereupon the board of assessors shall apportion and allocate to the lands in said Sacramento assessment district the amount of said assessment to be called from and paid by each parcel of land therein, for and by reason of the construction of such works in said unit. Such apportionment shall be made according to the benefits that will accrue to each tract of land in said district respectively by reason of the construction of such unit. And in determining the proportion of said assessment to be called for such purpose it shall be assumed by the board of assessors and in the judicial proceeding hereinbefore described that the whole of the Sacramento flood control project will be constructed substantially in accordance with the official plan therefor theretofore filed with the reclamation board.

The board of assessors shall thereupon delimit the area of the lands upon which said assessment has been apportioned and shall file the same with the board. Thereupon the same procedure shall be had in finally determining such apportionment and allocation of said assessment on each of the tracts of land for construction of said unit as is herein provided for the preparation of the original assessment, including the judicial proceeding hereinbefore mentioned. And when such proceedings have been taken in the manner provided in sections thirteen and fourteen of this act and otherwise as herein provided, the portion of such assessment so apportioned and allocated for the construction of such unit shall constitute a lien upon the lands so assessed in the manner in this act provided. Until the official plan for the Sacramento assessment district has been finally approved, adopted and filed in the office of the reclamation board, as herein provided, the board, by an order entered upon its minutes may determine to construct and may construct or continue the construction of any project or unit forming part of the whole Sacramento flood control project which, in its discretion, it may be necessary to construct or complete, and an assessment for the cost thereof shall, if the same has not already been made, be levied and apportioned to such of the lands within said Sacramento flood control project as will be benefited thereby, and the same procedure for determining such benefits and making and collecting such assessment shall be followed as is hereinbefore provided.

The board may hereafter, by an order entered upon its minutes, determine the construction of any one or more of said units.

Sec. 35. Upon expiration of the period of sixty days after any such assessment or the part thereof apportioned and allocated for the construction of any project or unit thereof has become final by rendition of the judgment in said judicial proceeding and the depositing of a certified copy of said judgment with the county treasurer of each county affected, an election shall be called and held by the reclamation board in the whole, or that part affected thereby, of said Sacramento assessment district or in any unit thereof, as the said board has theretofore determined, to determine whether the cost of such work shall be paid by calls to be made upon such assessment or the part thereof theretofore apportioned or allocated, in such installments as may from time to time be determined by the board, or whether bonds of the said district shall be issued in an amount equal to the amount of such assessment or the part thereof so allocated and apportioned, it in units, and then remaining unpaid, which said amounts shall be entered by the board in its records and stated by them in the order for said special election. Such order shall be entered upon the minutes of said board.

Guardians, executors, administrators and other persons holding land in a trust capacity under appointment of court may vote therein without obtaining special authority therefor. Said board shall in said order specify the day on which said election shall be held, and shall specify and designate one or more polling places as it may determine to be necessary in each supervisor district wherein are situated any of the lands within said Sacramento assessment district for the holding of such election. In case the board shall consider it necessary or proper to provide more than one polling place in any supervisor district for the holding of such election, the board shall in said order divide the lands in such supervisor

district and within such Sacramento assessment district into separate voting districts and shall designate and provide one polling place for and within each such voting district at which shall be cast the votes of owners of land within such voting district. The board may, however, combine contiguous portions of different supervisor districts into one voting district in cases where the lands in such voting district shall not be assessed to more than one hundred different owners, counting one owner for each tract assessed to unknown owners and counting the estate of a deceased person as one owner. The board shall also in said order appoint a board of election for each such polling place, which board of election shall consist of three owners of land within such Sacramento assessment district and within the county and within such voting district where such polling place is located. Each member of such board of election, whether so appointed by the board or whether acting as a substitute, as hereinafter provided, shall be entitled to the sum of five dollars for his services as such, to be paid by said board out of any funds of the Sacramento and San Joaquin drainage district or of said board applicable thereto.

Notice of such election must be given by the board by posting notices thereof in at least three public places in each voting district at least twenty-one days prior thereto, and also by publication for the same length of time in some newspaper of general circulation published in each county in which any portion of said district or unit may be situated, and such notice must specify the time and place of holding such election, the aggregate face value of bonds proposed to be issued and the name of the persons appointed to act as a board of election. Affidavits of the publication and posting of such notice must be filed with the county clerk of the county in which the same have been published, together with a copy of said order calling such election certified by the president of the reclamation board. Duplicate original affidavits of publication and posting of such notice shall also be filed in the office of the board.

At such election each owner of land within the Sacramento assessment district affected by such assessment, whose assessment is unpaid, shall have the right, in person or by proxy, to cast one vote for each one cent of the amount for which his land is assessed, by such assessment or the portion thereof affected by such election; and the reclamation board shall, prior to such election, cause to be prepared and certified and furnished to the board of election in each such voting district, a true and correct voting list containing the reference number of each tract, to whom assessed, and the amount of the assessment thereon with reference to which the election is to be held, which voting list shall be used by the board of election in determining the right to vote and the number of votes to be cast and shall be sufficient evidence thereof. The vote of any public or private corporation or of any reclamation district levee district drainage district or other public agency entitled to vote at such election may be cast by any person authorized by the board of directors or trustees or other managing body thereof, which authorization shall be in writing and certified to by the secretary or clerk thereof and attested by its seal duly acknowledged and filed with the board of election. No person shall vote by proxy at such election unless authority to cast such vote shall be evidenced by an instrument in writing duly acknowledged and certified in the same manner as grants of real property and filed with the board of election. In case of the change of ownership of any tract of land or in case the name of the owner of any tract of land be not correctly stated in the said voting list aforesaid or in case it be assessed to unknown owners the right to vote shall belong to the owner of such land at the time of the holding of such election; and if the right of any person to vote as the owner of any such tract of land be disputed or challenged, the question of his right to vote shall be determined by the board of election after examining him under oath, which oath any member of such board of election is hereby authorized to administer, and any person testifying falsely upon such examination shall be guilty of perjury. Any person voting or attempting to vote at such election who is not entitled to vote at such election as herein provided, shall be subject to the same penalties and punishments as provided by the general election laws of this state for voting or attempting to vote illegally.

The ballots cast at such election shall contain the words "bonds—yes," or the words "bonds—no," and also the signature of the person casting the ballot, with the number of votes cast by him. If a ballot is cast by proxy it shall also contain the name of the landowner for whom the ballot is cast and the signature of the person casting such vote as such proxy. A list of the ballots cast shall be made by the board of election, containing the name of each voter, and if the ballot be cast by proxy the name of the person casting it and the number of votes cast by each and whether the same be cast for or against the issuing of the bonds.

If any person appointed as a member of the board of election shall fail to attend at the opening of the polls, the voters then present may appoint in his place any landowner of the district then present and entitled to vote at such election at such polling place to fill the position of any absent member thereof. Each member of such board of election must, before entering upon the discharge of his duties as such, take and subscribe an official oath which oath may be administered by an officer authorized to administer oaths, or by any landowner in the

district. The polls shall be kept open from nine o'clock a.m. until five o'clock p.m. of the day appointed for such election. At the close of the polls the board of election shall at once proceed to canvass the votes and declare the result, and shall forward a certificate showing such result and the number of votes cast for and against the issuing of bonds to the reclamation board, and shall deliver a duplicate thereof to the county clerk of each county in which the lands of the voting district are located and shall also deliver to said board all ballots, voting lists and lists of ballots cast at such election and all documents and papers used thereat, and the reclamation board shall examine and canvass said certificates received from such boards of election and determine therefrom and declare, and enter in its minutes, as the managing body of said district, the total result of such election. Any person interested may, within twenty days after the result thereof has been so determined and declared by the reclamation board, contest such election so far and to such extent as the same depends upon the votes or proceedings had in the matter of such election in any county by bringing suit in the superior court of such county and if no contest shall be commenced within said time the declaration of the result by the reclamation board shall be final and conclusive.

Sec 36. If a majority of votes cast at such election are in favor of the issuance of bonds, the reclamation board shall cause bonds of the said Sacramento and San Joaquin drainage district, in the amount stated in said order calling such election, to be prepared and executed and delivered to the state treasurer. Said bonds shall be of the denomination of not less than one hundred dollars nor more than one thousand dollars each. They shall be signed by the president of the reclamation board and attested by the secretary of said board, with the seal of said board affixed thereto, and shall be numbered consecutively in the order of their maturity, and shall bear date at the time of their execution, and shall bear interest at a rate not to exceed six per cent, per annum, payable semiannually on the first day of January and the first day of July in each year, at the office of the state treasurer upon presentation of the proper coupons therefor. Coupons for each installment of interest shall be attached to said bonds and shall bear the facsimile signature of the state controller.

The principal of said bonds shall be made payable by an order of said board entered upon its minutes on the first day of July or the first day of January and in such years as the board may prescribe but such bonds shall be payable serially within twenty years from their date in the manner following, to wit:

Not less than ten per cent of the aggregate face value of bonds issued shall be payable within ten years from their date, and not less than nine per cent of the aggregate face value of bonds issued shall be payable each year beginning with the eleventh year from their date until the whole amount of said bonds have been paid.

If any bond or interest coupon shall not be presented to the state treasurer for payment when the same becomes due, it shall cease to bear interest, but if presented at or after such time and not paid for want of funds, the state treasurer shall so endorse such bond or coupon together with the date of presentation, and thereafter such bond or coupon shall bear interest at the rate expressed in the bond until paid or until funds have been provided applicable to its payment.

Said bonds may be substantially in the following form:

Sec 37. The board shall deliver the bonds prepared pursuant to this act, duly signed and attested, to the state treasurer. Within ten days after any of said bonds have been delivered to the state treasurer an action may be commenced by the reclamation board in the superior court of any county wherein is included any part of said Sacramento assessment district against the lands in said Sacramento assessment district and all persons owning the same or interested therein, to have it determined that said bonds are a legal obligation of such district. Such action shall be in the nature of a proceeding in rem, and the defendants in such action shall be designated as "all persons having or claiming any interest in or lien upon any lands within the Sacramento assessment district of the Sacramento and San Joaquin drainage district." It shall be sufficient to describe said lands as all lands in the district or unit, without a more specific description. A summons in such action besides the matters required by section four hundred seven of the Code of Civil Procedure, shall contain a statement that the action is brought to determine the validity of bonds of the Sacramento and San Joaquin drainage district to the amount stated therein, executed by the reclamation board and delivered to the state treasurer and based upon and to be paid out of an assessment levied by said reclamation board upon lands within the Sacramento assessment district of the Sacramento and San Joaquin drainage district. Jurisdiction by the court over all parties interested in said action shall be obtained by publication of a copy of the summons at least once a week for three successive weeks in a newspaper of general circulation published in each county wherein are situated any lands within said Sacramento assessment district of the Sacramento and San Joaquin drainage district, which newspaper shall be designated by the court wherein the action is pending. If there be no newspaper within any such county or if said notice is refused publication in the newspaper of any county so designated then such notice may be published in a newspaper of general circulation published in an adjoining county. Within thirty days after the publication of such summons in each of said counties any owner of land in said district or any one interested therein may appear and answer the complaint, which answer shall be verified and shall set forth the facts relied upon to show the invalidity of said bonds. The default of all defendants not so appearing may be entered. Such action shall be given precedence in hearing and trial over all other civil actions in such court and judgment rendered declaring such bonds either valid or invalid. Any party not in default shall have the right to appeal to the supreme court within thirty days after the entry of judgment, which appeal shall be advanced upon the calendar of the court in which the appeal may be pending and determined as early as possible. Judgment for the plaintiff in such proceeding shall be considered as a judgment in rem and shall be conclusive against said district and against all lands therein and all owners thereof and other interested persons. Costs may be awarded to or against any party appearing in such action as the court may in its discretion determine. Any action or proceeding commenced by any party other than the reclamation board to contest or in any manner interfere with the validity or disposition of said bonds must be tried in the superior court of the county of Sacramento in the State of California, and no action or proceeding shall be commenced by any party other than the reclamation board until the expiration of ten days after such bonds have been executed and delivered to the state treasurer, nor unless the action in this section provided for shall not have been commenced by the reclamation board within said period of ten days.

Sec 38. The state treasurer shall receive and place the said bonds to the credit of said Sacramento and San Joaquin drainage district, and shall when and as

directed by the reclamation board sell any of said bonds for the best price obtainable therefor, but in no event for less than ninety per cent of the face value of such bonds and the accrued interest thereon. Before making a sale of the said bonds notice shall be given by the state treasurer that he will sell a specified amount of said bonds, stating the day, hour and place of said sale. Such notice shall state that sealed proposals will be received by him for the purchase of said bonds or any part thereof at the day and hour named in the notice. Such notice shall be given by publication once a week for three weeks in a newspaper of general circulation published in the city of Sacramento. At the time and place appointed in said notice the state treasurer shall open the bids and shall award the purchase of the bonds or any part thereof to the highest responsible bidder, or he shall notify the reclamation board of the amounts of the highest bids received, and reject any or all bids if so required by said board. In case no bid is received and accepted as herein provided or a sufficient amount of bonds shall not be sold, said reclamation board may draw upon the state treasurer for, and issue and deliver said bonds at not less than the face value thereof in payment for any of the works or other expenses involved in or connected with the construction of the said Sacramento flood control project or the unit thereof, for which such bonds have been authorized, and may make contracts for any of the works of said project or unit thereof or expenses therein, payable in whole or in part in such bonds; and in making such payments in bonds said board shall draw orders upon the state treasurer payable in such bonds to the amount therein named, which order shall be countersigned by the state controller and shall be paid with such bonds by the treasurer upon presentation, to the amount therein provided for, if there be sufficient bonds on hand to pay the same. In drawing any such order upon the state treasurer payable in such bonds as aforesaid said board may specify the maturity of the bonds which are to be delivered in compliance with such order, and such specifications shall be complied with by the state treasurer as far as possible. The money derived from the sale of any of said bonds shall be received by the state treasurer and shall be by him safely kept and placed to the credit of Sacramento and San Joaquin drainage district in a fund to be designated as the Sacramento flood control project construction fund for said project or unit thereof, and may be drawn and expended upon warrants drawn against said fund as herein elsewhere provided.

The bonds of the Sacramento and San Joaquin drainage district or any unit thereof issued pursuant to this act may be lawfully purchased, or received in pledge for loans by banks, trust companies, insurance companies, guardians, executors, administrators and special administrators or by any public officer or officers of this state or of any county, city or city and county or other municipal or corporate body within this state having or holding funds which they are allowed by law to invest or loan.

Sec. 39. From the first money received from the sale of such bonds the state treasurer shall retain, and the same shall not be used or expended for any other purpose, sufficient money to pay the interest which will fall due upon any of such bonds during the period of one year thereafter, and the state treasurer shall at all times retain in his hands sufficient money from the sale of such bonds, which, with other funds applicable thereto in his hands, will be sufficient to pay all interest to accrue upon any of said bonds within the period of one year next succeeding, and the money so withheld by the state treasurer shall be applied on said bonds and interest thereon and shall not be used for any other purpose.

Sec. 40. Whenever any of such bonds are sold or delivered by the state treasurer, either to a purchaser thereof or upon an order from said board payable in such bonds, the state treasurer shall first detach therefrom and cancel all past due interest coupons and deliver such cancelled coupons to said board or its secretary, and shall also at once certify and deliver to said board or its secretary a list of such bonds so sold or delivered, showing the serial numbers, denominations and date of maturity of the bonds so sold or delivered, the price received for each bond sold, and the date of maturity of the earliest maturing interest coupon left attached to each bond so sold or delivered. The state treasurer shall also certify and deliver to said board or its secretary, whenever requested a statement of all of such bonds and coupons for interest thereon paid by him and of all bonds or coupons presented for payment and not paid for want of funds with the date of presentation.

Said board shall maintain in its office and open to public inspection at all reasonable times during office hours a book or books to be known as the bond record of the Sacramento assessment district containing a complete record of the existing condition of the whole of each such bond issue, as compiled from time to time from such reports from the state treasurer, from which can be ascertained the amount of bonds outstanding and the interest accumulated and unpaid thereon.

Sec. 41. With the money received from the sale of bonds or with the said bonds as heretofore provided, the reclamation board, as the managing body of said Sacramento and San Joaquin drainage district shall proceed with the construction and completion of the said Sacramento flood control project or of any unit thereof, according to the best judgment of said board and without unnecessary delay. For the

purpose of paying the costs and expenses of such work said board shall, from time to time, as may be necessary, present its written requests to the state controller for the issuance of warrants, specifying the amount of the warrant and the name of the payee thereof, and upon receipt of such written requests the state controller shall draw his warrants upon the state treasurer payable out of the funds raised from the sale of such bonds or payable in bonds as heretofore provided, and the state treasurer shall pay the same or make delivery of such bonds as provided herein. All construction work done by said reclamation board in carrying out such plans, which is to be done under contract let by the board as provided in section twenty-one of this act, excepting work which may be deemed emergency work by the board, shall be let to the lowest responsible bidder.

Sec. 42. No warrant issued pursuant to any of the provisions of this act shall be accepted or received by the county treasurer in payment of all or any part of any assessment upon which bonds have been authorized.

Sec. 43. No officer shall charge or receive any fee for any services required to be performed by him under the provisions of this act, but any reasonable and necessary expense actually incurred by any officer in carrying out any of the provisions of this act relating in any manner to the collection of any assessment shall be paid out of the funds of said district.

Sec. 44. Said board shall enforce the collection of the balance heretofore ordered paid and remaining unpaid upon any assessment heretofore levied by said board for general administrative and engineering expenses of the board not specially pertaining to any particular portion or project of the plans to be carried out by said board, and the money collected thereon shall be used and applied by said board for the purpose for which such assessment was levied. The portion of any such assessment not heretofore ordered paid by said board may be abandoned by said board at its option or said board may at its option order the same to be paid and proceed with the collection of the same, and the money derived therefrom shall be used and applied for the purposes for which such assessment was levied.

Sec. 45. If the result of such election shall be against the issuance of such bonds, then such assessment or that portion thereof involved in and affected by such election shall be ordered paid and collected in such installments and as fast as may be in the judgment of the reclamation board be necessary for construction of said Sacramento flood control project or for construction of the unit thereof involved, as the case may be, and with the funds collected from such assessment, or the portion thereof involved in the construction of any unit as aforesaid the board shall proceed to construct and complete the said project, or the said unit thereof, as the case may be.

Sec. 46. All levees and other works in existence which form part of, or which may in the judgment of said board be utilized to advantage to form part of, the works to be included in the said official plan mentioned in section thirty-two of this act, may be acquired and taken over by said board in the name of the Sacramento and San Joaquin drainage district by agreement with and purchase from the owner thereof, if such agreement can be made to the satisfaction of said board, or by condemnation in accordance with the laws of this state relating to the exercise of the power of eminent domain, and the power to acquire the same pursuant to such laws is hereby conferred upon said board acting in the name of and on behalf of said Sacramento and San Joaquin drainage district.

Sec. 47. When a comprehensive plan for control of the flood waters of the San Joaquin river and its tributaries has been formulated and adopted and approved by the reclamation board, the same shall be designated by said board as the San Joaquin flood control project; and said board shall thereupon proceed without unnecessary delay to prepare complete plans, specifications and estimates of costs of the whole of such San Joaquin flood control project, which plans, specifications and estimates shall be prepared and completed in detail and ready for construction of the entire project and in such manner as to ascertain as nearly as the same can be estimated the entire total cost of construction of the general project, including all administrative and engineering expense and all other expense of whatever nature which is or will be involved in the construction of the entire project, and a reasonable margin for possible deficiency in estimates. The board shall also ascertain as nearly as possible the time which will be required to complete construction of the entire project. When these plans, specifications and estimates have been completed and approved by the board they shall be designated as the official plan for construction of the San Joaquin flood control project, and shall be filed in the office of the board and there remain as a permanent record. The board shall also prepare or cause to be prepared a comprehensive plan for control of the flood waters of the Mokelumne river and its tributaries, the same to be designated by said board as the Mokelumne flood control project. The said board shall thereupon proceed as in the case of the San Joaquin flood control project to prepare plans, specifications and estimates in the same manner and shall also ascertain the earliest possible time which will be required to complete construction thereof. When these plans, specifications and estimates have been completed and approved by the board they shall be designated as the official plan for the

construction of the Mokelumne flood control project and shall be filed in the office of the board and there remain as a permanent record.

Sec. 48. If said board or any member thereof, or any officer or appointee or employee thereof, or any public officer in this act mentioned or referred to, shall fail to perform any duty imposed by this act, at the time and in the manner in this act provided, the attorney general of the state shall have the power and it shall be his duty to compel the performance of such act by mandamus proceeding or by any other appropriate remedy, legal or equitable, and in case the attorney general shall fail, neglect or refuse so to do, it shall be the duty of the governor to compel the performance of such act by mandamus proceeding or other appropriate legal or equitable remedy, and to employ special counsel therefor at the expense of said Sacramento and San Joaquin drainage district.

Sec. 49. SEC. 2. In order to propose the organization of an irrigation district, a petition shall be presented to the board of supervisors of the county in which the lands within the proposed district, or the greater portion thereof, are situated, signed by the required number of holders of title, or evidence of title, including such aforesaid possessory rights to lands within such proposed district, and representing the requisite majority in value of said land, or a petition shall be presented to said board of supervisors signed by not less than five hundred petitioners, each petitioner to the number of at least five hundred to be an elector in the proposed district, or to be some person, corporation, association or partnership, the holder of title to lands in said proposed irrigation district, or evidence of title to lands in said proposed irrigation district, including the holders of possessory rights under receipts or other evidence of the rights of entrymen or purchasers under any laws of the United States or of this state, the said petitioners signing said petition shall include the owners of not less than twenty per cent in value of the land within said proposed irrigation district according to the equalized county assessment roll or rolls for the year last preceding, which petition shall set forth generally the boundaries of the proposed district and also shall state generally the source or sources (which may be in the alternative) from which said lands are proposed to be irrigated, and shall pray that the territory embraced within the boundaries of the proposed district may be organized as an irrigation district under the provisions of this act. The petition may consist of any number of separate instruments, and must be accompanied with a good and sufficient undertaking, to be approved by the board of supervisors, in double the amount of the probable cost of organizing such district, conditioned that the sureties shall pay all of said costs in case said organization shall not be effected. Said petition shall be presented at a regular meeting of said board and shall be published for at least two weeks before the time at which the same is to be presented in some newspaper of general circulation printed and published in the county where said petition is presented together with a notice stating the time of the meeting at which the same will be presented, and if any portion of the lands within said proposed district lie

within another county or counties, then said petition and notice shall be published, as above provided, in a newspaper published in each of said counties. When contained upon more than one instrument, one copy only of such petition need be published, but the names attached to all of said instruments must appear in such publication. On or before the day on which said petition is presented to said board of supervisors, a copy of said petition shall be filed in the office of the state engineer. When said petition is presented, said board of supervisors shall hear the same and shall proceed to determine whether or not said petition complies with the requirements hereinbefore set forth and whether or not the notice required herein has been published as required, and must hear all competent and relevant testimony offered in support of or in opposition thereto. Said hearing may be adjourned from time to time for the determination of said facts, not exceeding two weeks in all. No defect in the contents of the petition or in the title to or form of the notice or signatures, or lack of signatures thereto shall vitiate any proceedings thereon, *provided*, such petition or petitions have a sufficient number of qualified signatures attached thereto. The determination of the board shall be expressed by resolution. If it shall determine that any of the requirements hereinbefore set forth have not been complied with, the matter shall be dismissed, but without prejudice to the right of the proper number of persons to present a new petition covering the same matter or to present the same petition with additional signatures, if such additional signatures are necessary to comply with the requirements of this act. If the board of supervisors shall determine that the petitioners have complied with the requirements hereinbefore set forth, it shall cause a copy of the resolution so declaring to be forwarded to the state engineer and shall postpone further hearing of said petition until a report shall be received from the state engineer. Upon receiving a copy of said resolution, the state engineer shall make or cause to be made such preliminary investigation as may be practicable, with a view to determining the feasibility of the project proposed to be undertaken. He shall report as soon as practicable, but at all events within ninety days, in writing, on the matter to the board of supervisors from which the copy of said resolution was received, and such board of supervisors at their next regular meeting following the receipt of said report shall set a time for the consideration of said report; *provided*, that such time shall not be less than one week from such regular meeting of said board of supervisors; and *provided*, further, that notice of such time shall be given by registered mail to such party as shall have been designated for that purpose by the petitioners or by publication for at least three days in one daily newspaper published in the county in which the lands within the proposed district, or the greater portion thereof, are situated. A failure to give such last mentioned notice however, shall not affect the validity of subsequent proceedings. If the state engineer shall report that the supply of water available for the use of the proposed district, or that may be acquired by any practicable means, including the condemnation of existing rights, is not sufficient or that the project is not feasible for any other reasons or reason and if such report shall be filed with the said board of supervisors before the expiration of ninety days from and after the date of the adoption of the aforesaid resolution, the hearing of the petition shall again be continued for not more than two months and shall then be dismissed, unless the board of supervisors shall be petitioned in writing by three-fourths in number of the holders of title or evidence of title including possessory rights, to land within said proposed district to grant the same; *provided*, that if such petition is not received the board of supervisors may modify the plans for the proposed district in accordance with recommendations by the state engineer. If the report of the state engineer shall not compel the continuance of the matter as aforesaid, or if no report is received or if the state engineer makes a written statement that he has been unable to make such report, or if no report is made at the first regular meeting after the expiration of said ninety days, the board of supervisors shall, at the meeting at which said report shall have been set for hearing, proceed to a final hearing of the petition. If said board shall, after receiving an adverse report from the state engineer, as aforesaid, decide to modify the plan as set forth in said petition or shall be requested in writing by three-fourths in number of the holders of title or evidence of title, including possessory rights, to the lands within said proposed district to grant said petition, said board shall then proceed at the time set to a final hearing of the matter. On a final hearing herein provided for, the board may adjourn from day to day, but not for a longer time, until a determination of the matter is reached. On said final hearing said board shall make such changes in the proposed boundaries as it may deem advisable and shall define and establish such boundaries, but said board shall not modify said boundaries so as to exclude from such proposed district any territory which is susceptible of irrigation from any of the sources proposed, unless said board shall decide to modify the plan for such proposed district, as herein provided, nor shall any lands which will not, in the judgment of said board, be benefited by irrigation by means of any said systems or works be included within such proposed district. Lands already irrigated and riparian lands may be included in the district if in the judgment of the board of supervisors such land will be benefited or if the water used thereon or the rights to the use of water thereon should, in the judgment of the board of supervisors, be taken or

acquired for the district. Any person whose lands are susceptible of irrigation from any of the proposed sources may, upon his application, in the discretion of said board, have such lands included within said proposed district.

#### EXPLANATION OF VOTE.

The following explanation of vote was presented, and ordered printed in the Journal:

In explanation of my vote on Assembly Bills Nos. 31, 50 and 91, I desire to state that while I am thoroughly impressed with the urgent need of a new State Normal School in the city of San Francisco, I am convinced that the proposition contained in these bills to preserve and reconstruct the California Building at the site of the Panama-Pacific Exposition into such a school, at a cost to the State of near a half million dollars, is a monumental mistake. The building is a mere frame shell, was constructed for temporary purposes only, and is, to my mind, unsuited for normal school purposes from every standpoint. Any attempted remodeling of this building will provide at best only a temporary plant, subject to destruction by fire and possibly endangered from the waters of the bay. The cost of maintaining such a building in repair will be an extraordinary burden to the State. I am in favor of a new modern State Normal plant in San Francisco. I therefore voted "No" on these bills.

HENRY W. WRIGHT.

We concur in the above statement of reasons in explanation of our votes against the measures referred to therein.

#### NOTICE OF RECONSIDERATION.

Mr. Dennett gave notice that on the next legislative day he would move to reconsider the vote whereby Senate Bill No. 414 was this day refused passage.

#### EXPLANATION OF VOTE.

The following explanation of vote was received, and ordered printed in the Journal:

By Mr. Merriam:

Because, in my judgment, Senate Bill No. 414 will not advance the interests of prohibition but will hinder and delay its coming, and for the further reason that my people and constituents have expressed their positive and definite disapproval of the bill as set out below, I vote "No."

*Resolved*, That we, the Woman's Christian Temperance Union Federation of Long Beach, do hereby most emphatically protest against being classified with the whiskey, rum, saloon and wine interests of the State of California, yet at the risk of being so classified, we do hereby record our united and vehement opposition to the passage of Senate Bill No. 414 with its various amendments, believing it to be a compromise measure which would in no wise eliminate any of the evils attendant upon traffic in liquors, but to the contrary, would add to such evils and would by the perpetuation of the license system, delay the ultimate object of our organization, the complete annihilation of the manufacture, use, and sale of all alcoholic beverages.

*Resolved*, That a copy of these resolutions be furnished to the press of this city and copies sent to our representatives in the Legislature. Senator Rominger and Assemblyman Frank F. Merriam.

#### WOMAN'S CHRISTIAN TEMPERANCE UNION FEDERATION OF LONG BEACH

(Miss) HATTIE CORFINE YOUNG, President.

(Miss) CORNELIA ADELE TRAL, Secretary.

At a mass meeting called by the Men's Brotherhood of the Central Methodist Church, Long Beach, you were requested to use your office and vote to carry out the wishes of the meeting as expressed in opposition to Senate Bill 414, and we beg to assure you of our lively interest in the task assigned you and pledge you our hearty support.

E. L. HASLET  
H. A. BAILEY  
REV. A. W. SHAMEL

The Brotherhood of the First Methodist Episcopal Church of Long Beach, believing in throwing every possible safeguard around the young, and believing that the Rominger Bill, if enacted into law would result in the placing before the young manhood and womanhood of this city, and of this State innumerable places of temptation, therefore, be it

*Resolved*, By the Brotherhood of the First Methodist Episcopal Church of Long Beach, that we disapprove any attempt to make respectable or prolong the life of the so-called business that is so destructive of the best interest of humanity for time and eternity, be it

*Resolved further*, That it is the sense of this Brotherhood that every Christian man and woman who recognizes the danger of the wine cup should use every legitimate effort not only to prevent enactment of this bill into law, but to pray, work and vote for the entire elimination of all alcoholic liquors of every kind for beverage purposes from both state and nation, and to this end we pledge our best endeavors, be it further

*Resolved*, That a copy of the above resolutions be sent to each of the local papers and to our representatives in the Legislature.

A. F. HAMMAN, President.

H. C. WAUGHROP, Secretary.

At a regular meeting of the Brotherhood of the Central M. E. Church, of Long Beach, California, a resolution was passed unanimously, opposing the passage of Senate Bill No. 414.

Our reasons for opposing the bill are:

1st. Drunkenness would not be reduced by the passage and enforcement of said bill:

2d It is an indisputable fact that most of our drunkenness is caused by drinks having a less amount of alcohol than the bill provides:

3d It would therefore be of no advantage to the cause of temperance.

4th By compromising with the liquor interests in the passage of this bill, we would be reducing our chances for a complete prohibition measure.

Trusting you will give this matter due deliberation, we are

Respectfully yours,

E. L. HASLETT, President

W. F. TIFFT, Secretary.

I hope you can see it right to oppose the Rominger bill. Too many liquor men favor it. A compromise with any shade of alcohol as a beverage will not win. A question is never settled until it is settled right. Anti-saloon is not enough

A F. MITCHELL, Pastor Friends Church, Long Beach.

A called public meeting was held in the First Methodist Church yesterday (Sunday) and that action was taken after reading Mrs. Griffith's letter and one from the Sacramento Church Federation. We all stand four square against the Rominger bill, and only wish we could be in your place when the vote is taken. We will vote every time with the whiskey people on this bill for it came about from their influence. The knavery legalized by that company ought to be transparent enough after all of these years for everybody who really believes in state wide prohibition to read beneath the lines.

MISS CORNELIA ADELE TEAL,

Secretary W. C. T. U. Federation, Long Beach.

Whereas, the Rominger Bill will abolish the saloon but open the way for a multiplication of cafes; whereas, it seems futile to vote out whiskey and yet permit the sale of twenty-one per cent liquor; whereas, we know that this bill was drawn to prevent state wide prohibition, therefore be it resolved that we stand unalterably opposed to this or any like bill and that we instruct our representatives at Sacramento to do all in their power to prevent the enactment of any such legislation.

Adopted by morning congregation of the First Methodist Church, Long Beach; two thousand present, no one voting no.

Vote cast with tremendous enthusiasm.

JAMES ALLEN GEISSINGER,

Pastor First Methodist Church, Long Beach.

The manipulation of legislation so as to make it absolutely necessary for the temperance people to line up with the liquor traffic forces in one faction or in the other (saloon men or wine men) is a very cleverly devised scheme and evidently has swept some really temperance people off their feet.

MRS. HATTIE CORLINE YOUNG,

President W. C. T. U. Federation, Long Beach.

It was not my thought to write you about the Rominger Bill. I have a notion that all of the temperance legislation of this session is a matter of marking time and putting up a little political bluff. However, on account of the Mallory letter, I am going to have the temerity to write you a word.

In my judgment the Rominger Bill should not have been introduced nor supported by Long Beach representatives for the following reasons

1. Because Long Beach stands staunchly for bone-dryness, nothing else. Its representatives should represent and not misrepresent this sentiment.

2 Because this bill is such a bifurcated, hyphenated wet-dry bill that I believe that it will set our temperance forces staggering

3 Because the main danger to our youth comes from slightly alcoholic beverages. It is the start we have most to consider. When men have made a good start toward suicide by the alcohol-poison route, I am not sure but the quicker the trip the better for the good of society. That seems a bit cruel, but I am thinking of it now from the legislator's viewpoint.

4. Because the conditions of the bill will encourage the fostering of cafes—the most diabolical, double-headed outfit of the whole booze business. I lived in New York when the Raikes Law hotels flourished. May I never see any similar institution anywhere.

5. Because the bill is impractical. I can not believe that the gentlemen who are running an outlaw business will be so very careful in figuring out percentages. I am extremely fearful that a little more than twenty per cent may slop over into some drinks, and that will be a terrible strain upon the consciences of some of these liquor grocery-men. If this bill passes another ought to be introduced providing an alcohol-meter device to attach to the bill of every drinker with an attachment for reporting the percentages to a man's wife or mother.

GEORGE D. KNIGHTS.

Pastor First Baptist Church, Long Beach.

Your constituents are against the Rominger Bill. They defeated a twenty-one per cent measure locally last February. Please vote and work against the Rominger Bill.

REV. HERBERT STANLEY.

Chairman Los Angeles Temperance Workers.

From the time of the making of such order the lands so excluded shall be deemed to be no longer included in the district, but such order of exclusion shall not be taken to invalidate in any manner any taxes or assessments theretofore levied or assessed against the lands so excluded. of buildings upon the payment of a fee of five dollars to said board, and if the evidence submitted shall entitle such person to a certificate to design and superintend the construction of buildings, and shall further show that the architectural features have been designed by him, and such evidence is deemed by the board to show a sufficient knowledge of architectural subjects, the board shall, without an examination, grant to such person a certificate as an architect upon the payment of a fee of five dollars to said board.

SEC. 8. Every person to whom a certificate to design and superintend the construction of buildings or a certificate as an architect has been issued, in accordance with this act, shall have his certificate recorded in the office of the county recorder in the county in this state in which the holder thereof resides, and shall pay to the recorder the same fee therefor as is charged for the recording of deeds.

Every person to whom a certificate to design and superintend the construction of buildings or a certificate as an architect has been issued, in accordance with this act, shall pay an annual license fee of five dollars to the state board of architecture, such fee to be retained by the board. Such fee shall be payable in advance on the first Monday in January of each year. When paid the secretary of the board shall issue to each such person a receipt signed by the president and secretary under the seal of the board. If any such person shall fail, neglect or refuse to pay such annual license fee on or before the first Monday in April of each year, said fee shall be delinquent, and the certificate of such person shall thereupon become subject to revocation and cancellation.

Each certificate to design and superintend the construction of buildings or certificate of an architect issued in accordance with the provisions of this act shall remain in full force until revoked and canceled for cause, as provided for in this section.

A certificate to design and superintend the construction of buildings or certificate as architect may be revoked and canceled if the holder thereof fails to pay the annual license fee; for conviction of fraud, misdemeanor under this act, or felony, in which case the record of such conviction shall be conclusive evidence; gross incompetency, gross carelessness or negligence, gross immorality or moral turpitude or dishonest practice.

It shall be the duty of the state board of architecture, whenever charges in writing have been filed with the said board and signed by the person filing such charges against any person holding a certificate under this act, charging such person with any of the causes of revocation and cancellation of the said certificate, to notify the said person in writing of the nature of the charges, and to cite him to appear before said board to show cause why such certificate should not be revoked and canceled. Such notification and citation shall be given not less than thirty days before the time set for the hearing, and the delivery of such notice and citation to the place of business or last known address of such person shall be deemed sufficient for the purpose of this notification and citation. Should such person so cited fail, neglect or refuse to appear at the time set by the board for the hearing, it shall be deemed evidence of guilt, and the board may thereupon revoke and cancel the certificate of such person. The board shall investigate fully the charges against such person at the time set for the hearing, and the person charged shall be given opportunity to be heard in his own defense or to be represented by counsel.

After such hearing, if, in the judgment of not less than four members of the board, the charges against such person have been proven, the board shall revoke and cancel the certificate of such person.

Upon the cancellation of such certificate, it shall be the duty of the secretary of the board to give notice of such cancellation to the county recorder of that county in the state in which said certificate has been recorded, whereupon the recorder shall mark the certificate recorded in his office "canceled."

At the expiration of not less than six months after said cancellation, the person whose certificate has been canceled may apply to the board for a new certificate, and the board may renew the same except when the same has been revoked for gross incompetency or gross carelessness, without requiring such person to pass the examination therefor prescribed by this act, and in no event shall any certificate be renewed to any person duly convicted of a felony.

SEC. 9. Nothing in this act contained shall be construed so as to prohibit any person who has been duly elected or appointed to a federal, state, or municipal office in the State of California, or who is regularly employed by the government of the United States, the State of California or an incorporated town, incorporated city, incorporated city and county, or county in the state to erect, construct, alter, add to, repair or reconstruct any building or other structure or portion thereof, or to design, superintend, or supervise any such work or portion thereof, when any of the said erection, construction, alteration, addition, repair, reconstruction or the designing, superintendence or supervision is done in the performance of the respective duties of such person, *provided, however*, that if any such work is performed by any person not duly elected, appointed, or regularly employed by the said government, state or incorporated town, incorporated city, incorporated city and county, or county, such person shall be subject to the provisions of this act.

SEC. 10. If any section, subsection, sentence, clause or phrase of this act is for any reason held to be unconstitutional, such decision shall not affect the validity of the remaining portions of this act. The legislature hereby declares that it would have passed this act, and each section, subsection, sentence, clause and phrase thereof irrespective of the fact that any one or more sections, subsections, sentences, clauses or phrases be declared unconstitutional.

## COMMUNICATION.

The following communication was received and ordered printed in the Journal:

By the Committee on Revision and Printing:

ASSEMBLY CHAMBER, SACRAMENTO, April 14, 1917.

There seems to have arisen some controversy between the State Printer and certain individuals over a question of overtime in the State Printing Office

This matter has not been brought officially to our attention, nor has any complaint of sufficient import been made to warrant an inquiry

There does not appear to be a difference between the employees and management of the plant, nor between the management and the labor organizations, nor an evasion in the application of the state law applying to such work

We desire to express our appreciation of the conduct of the State Printing Office, and congratulate the State Printer upon the harmonious relations existing not only between his department and the State Legislature, but also among the employees

After an investigation requested by the State Printer, we find no basis, either in law or in reason, for the unwarranted attempt to discredit one of the State's most efficient departments.

ALLEN, Chairman.

SEC. 21. The said committee may hear any application to rescind any order of assignment at any time upon notice of the hearing mailed to the superintendent of the state public school, at least ten days before the date thereof and may grant the same, if to the committee it shall seem desirable, but it shall not do so without due consideration to the effect thereof upon the discipline and conduct of the school and without giving due weight thereto.

(5) Each certificate must be a separate paper. All certificates must be of uniform size as determined by the county clerk. Each certificate must contain the name of one signer thereto and no more. Each certificate shall contain the name of one candidate and no more. Each signer must be a qualified elector residing within said district, must not at the time of signing a certificate have his name signed to any other certificate for any other candidate for the same office, nor, in case there are several places to be filled in the same office, signed to more certificates for candidates for that office than there are places to be filled in such office. Each signer must verify his certificate and make oath that the same is true, before a notary public or a verification deputy, as provided for in this section. Each certificate shall further contain the name and address of the person to whom the petition is to be returned in case said petition is found insufficient.

(6) Verification deputies, under this section, must be qualified electors of such county water district, and shall be appointed by the county clerk upon application in writing, signed by not less than five qualified electors of such county water district. The application shall set forth that the signers thereto desire to procure the necessary signatures of electors for the nomination of candidates for office in said county water district at an election therein specified, and that the applicants desire the person or persons whose names and addresses are given appointed as verification deputies, who shall upon appointment be authorized and empowered to take the oath of verification of the signers of petitions of nomination. If found not to conform thereto, he shall then and there in writing designate on said petition the defect or omission or reason why such petition can not be filed and shall return the petition to the person named as the person to whom the same may be returned in accordance with this section. The petition may then be amended and again presented to the clerk as in the first instance. The clerk shall forthwith proceed to examine the petition as hereinbefore provided. If necessary, the board of supervisors shall provide extra help to enable the clerk to perform satisfactorily and promptly the duties imposed by this section.

(9) Any signer to a petition of nomination and certificate may withdraw his name from the same by filing with the county clerk a verified revocation of his signature before the filing of a petition by the clerk, and not otherwise. He shall then be at liberty to sign a petition for another candidate for the same office.

(10) Any person whose name has been presented under this section as a candidate may, not later than thirty days before the day of election, cause his name to be withdrawn from nomination by filing with the county clerk a request therefor in writing, and no name so withdrawn shall be printed upon the ballot. If upon such withdrawal, the number of candidates remaining does not exceed the number to be elected, then other nominations may be made by filing petitions therefor not later than twenty-five days prior to such election.

(11) If either the original or amended petition of nomination be found sufficiently signed as hereinbefore provided, the clerk shall file the same twenty-five days before the date of the election. When a petition of nomination shall have been filed by the clerk it shall not be withdrawn or added to and no signature shall be revoked thereafter.

(12) The county clerk shall preserve in his office for a period of two years, all petitions of nomination and all certificates belonging thereto, filed under this section.

(13) Immediately after such petitions are filed, the county clerk shall enter the names of the candidates in a list, with the offices to be filled, and shall not later than twenty days before the election certify such list as being the list of candidates nominated as required by the provisions of this act, and the board of supervisors shall cause said certified list of names and the offices to be filled, to be published in the proclamation calling the election at least ten successive days before the election in at least one but not more than three newspapers of general circulation published in the county in which such municipal water district is located. Such proclamation shall conform in all respects to the general state law governing the conduct of general elections now or hereafter in force, applicable thereto, except as otherwise herein provided.

(14) The county clerk shall cause the ballots to be printed and bound and numbered as provided by said general state law, except as otherwise required in this act. The ballots shall contain the list of names and the respective offices as published in the proclamation and shall be in substantially the following form.

GENERAL (OR SPECIAL) DISTRICT ELECTION.

-----, COUNTY WATER DISTRICT.

(Inserting date thereof)

**Instructions to Voters.** To vote, stamp or write a cross (X) opposite the name of the candidate for whom you desire to vote. All marks otherwise made are forbidden. All distinguishing marks are forbidden and make the ballot void. If you wrongly mark, rear or deface this ballot, return it to the inspector of election, and obtain another.

(15) All ballots printed shall be precisely of the same size, quality, tint of paper, kind of type, and color of ink, so that without the number it would be impossible to distinguish one ballot from another; and the names of all candidates printed upon the ballot shall be in type of the same size and style. A column may be provided on the right hand side for questions to be voted upon at municipal water district elections as provided for under this act. The names of the candidates for each office shall be arranged in alphabetical order, and nothing on the ballot shall be indicative of the source of the candidacy or of the support of any candidate.

(16) The name of no candidate who has been duly and regularly nominated, and who has not withdrawn his name as herein provided shall be omitted from the ballot.

(17) The offices to be filled shall be arranged in the following order "For director vote for (giving number)."

(18) Half-inch square shall be provided at the right of the name of each candidate wherein to mark the cross.

(19) Half-inch spaces shall be left below the printed names of candidates for each office equal in number to the number to be voted for, wherein the voter may write the name of any person or persons for whom he may wish to vote.

(20) The county clerk shall cause to be printed sample ballots, identical with the ballot to be used at the election, and shall furnish copies of the same on application to registered voters at his office at least five days before the date fixed for such election, and shall mail one such ballot to each voter entitled to vote at such election, so that all of said sample ballots shall have been mailed at least three whole days before said election.

(21) In case there is but one person to be elected to an office, the candidate receiving a majority of the votes cast for all the candidates for that office shall be declared elected. In case there are two or more persons to be elected to an office, as that of director, then those candidates equal in number to the number to be elected, who receive the highest number of votes for such office shall be declared elected; *provided, however,* that no person shall be declared elected to any office at such first election unless the number of votes received by him shall be greater than one-half the number of ballots cast at such election.

(22) If at any election held as above provided there be any office to which the required number of persons was not elected, then as to such office the said first election shall be considered to have been a primary election for the nomination of candidates and a second election shall be held to fill said office. The candidates not elected at such first election, equal in number to twice the number to be elected to any given office, or less if so there be, who receive the highest number of votes for the respective offices at such first election, shall be the only candidates at such second election; *provided,* that if there be any person who, under the provisions of this subdivision, would have been entitled to become a candidate for any office, except for the fact that some other candidate received an equal number of votes therefor, then all such persons receiving such equal number of votes shall likewise become candidates for such office. The candidates equal in number to the persons to be elected who shall receive the highest number of votes at such second election shall be declared elected to such office.

(23) The said second election, if necessary to be held, shall be held three weeks after the first election.

(24) All the provisions and conditions above set forth as to the conduct of an election so far as they may be applicable, shall govern the second election, except

that notice of election need be published twice only *and provided, also*, that the same precincts and polling places shall, if possible, be used

(25) If a person elected fails to qualify, the office shall be filled as if there were a vacancy in such office, as hereinafter provided.

(26) No informalities in conducting county water district elections shall invalidate the same if they have been conducted fairly according to the provisions of this act or of the general laws.

SEC. 5 Section seven of said act is hereby amended to read as follows:

SEC. 7 Every incumbent of an elective office, whether elected by popular vote for a full term, or elected by the board of directors to fill a vacancy, is subject to recall by the voters of any county water district organized under the provisions of this act, in accordance with the recall provisions of the general laws of the state applicable to officers of counties.

MERRIAM, Select Committee.

Report of Select Committee of One and amendments adopted.  
Bill ordered to reprint, re-engrossment, and on file for passage.

## EXPLANATIONS OF VOTE.

The following explanations of vote were presented and ordered printed in the Journal:

By Mr. Smith:

I voted no on this amendment because the Assembly has already decided by an affirmative vote of forty-five of its members to keep the saloons without the provisions of this bill.

I believe the matter of "saloons or no saloons" was settled the other day by the votes on the Rominger and Ashley bills.

I believe that this amendment, if adopted, will tend to kill the bill, and as I want to vote for the bill, I voted no on the amendment, and will vote for the bill, as I believe it is a good one and will be of benefit to many of my constituents.

FRANK M. SMITH,

Member Thirty-sixth District.

By Mr. Baker:

I opposed this amendment of Mr. Merriam's to Assembly Bill No. 172, relating to the Sunday closing of saloons, for the reason that the question involved was the relief of the laboring people and the liquor question should not have been injected into the measure.

EDWIN BAKER.

Member Seventy-fifth District.

By Mr. Mouser:

I voted against the amendment of Mr. Merriam's to Assembly Bill No. 172, relating to Sunday closing of saloons, because I do not believe that the liquor question should be injected into a labor measure of this kind.

FRANK H. MOUSER

Member Seventy-fourth District.
